Vegetable and Flower Seeds

Gladiolus Bulbs

F. B. Mills - Seed Grower - Rose Hill, N.Y.

Giant Crimson
The plant is a strong grower, producing great quantities of beautiful flowers of truly giant size, of a rich crimson color, very glossy.

Pkt. (150 seeds), 10c; 3 pkts., 25c.

Giant Shrimp Pink
One of the most delightful shades in the pink group, a very attractive color. Enormous flowers produced in great abundance on strong plants.

Pkt. (150 seeds), 10c; 3 pkts., 25c.

Giant Purple
A most striking shade of light purple, being such a rich and pleasing color it attracts attention wherever grown.

Pkt. (150 seeds), 10c; 3 pkts., 25c.

Giant Burnt Orange
A rare color impossible to describe, being a most appealing shade of burnt orange. Plants and flowers are wonders in size.

Pkt. (150 seeds), 10c; 3 pkts., 25c.

Giant Canary Yellow
Plants grow very strong and flowers mammoth in size, being a clear canary-yellow, exceedingly attractive in beds and borders.

Pkt. (150 seeds), 10c; 3 pkts., 25c.

Giant Salmon Rose
A beautiful color; rich salmon-rose, a most striking shade always admired. Flowers mammoth in size and perfect in form.

Pkt. (150 seeds), 10c; 3 pkts., 25c.

Wonderful Shades and Colors

Zinnias grow well and bloom freely under the most adverse circumstances of location and weather, but delight in a sunny location and make a gorgeous display of flowers from early summer until frost.

These giant varieties grow from two to three feet tall and produce a great profusion of flowers, truly mammoth in size, many measuring four and even five inches and over in diameter in the most dazzling shades and colors.

Sow seed as soon as weather will permit in spring where plants are to grow and bloom and if given good care they will make a most beautiful color display.

1 Offer 6 Very Attractive Varieties—Read My Offer

SPECIAL OFFER—To every customer who will grow all six of these Giant Zinnias, I will send one packet of each color, 6 packets in all, as described on this page, to any address for only 30c; 2 collections for 50c, postpaid.
Giant Golden Yellow Blotched
A giant among Pansies. Remarkably fine on account of the beautiful shadings and the habit of carrying the color of the deep blotch into the margin. Pkt. (about 60 seeds), 10c; 3 pks., 25c.

Giant White 5 Blotched
This is another very attractive giant-flower ing sort produced in large number of beautiful tints and colors, heavily blotched and shaded. Very striking. Pkt. (about 60 seeds), 10c; 3 pks., 25c.

Giant Rosy-Pink
A delicate and pleasing variety of giant size, shades varying in different tints of rose and pink, making it exceedingly attractive. The photograph does not do it justice. Pkt. (about 60 seeds), 10c; 3 pks., 25c.

Giant Mercury
The giant flowers are a very delicate deep tinted purple, pictly shaded, one of the best in dark shades. Plant a sparse bloomer and makes a bright cutting equalled. "Painted and attractive. Pkt. (about 60 seeds), 10c; 3 pks., 25c.

Giant Adonis
A beautiful shade of light blue with some color shading of the dark shades and tints on the petals in striking manner. "An excellent dwarf variety. Pkt. (about 60 seeds), 10c; 3 pks., 25c.

Giant Pansies
10 Beautiful Varieties
I have made Giant Mixed Pansies a specialty for many years and still offer this mixture on one of the flower seed pages in this seed book.

This year I offer a very rare collection of 10 separate varieties in 10 colors as shown on this page. The artist in painting the colors to produce this color plate could not do the flowers justice in the rich combination of shades and colors in each variety, and my customers must see the flowers growing to fully appreciate their beauty.

Pansies are easily grown and bloom profusely for many months. Sow the seed indoors in March or April and transplant the young seedlings as soon as they are large enough, or seed may be sown outside at any time until the last of August. If seed is sown during August and plants given protection during Winter, with a light covering of leaves or straw, they will begin to bloom early in the Spring. Pansies are hardy with a little protection in Winter.

Try these 10 wonderful varieties and I am sure they will more than please you. Read my Special Offer.

Special Offer
I want every customer to grow these 10 beautiful Pansies this year, and make the following Special Offer. I will send one packet of each variety, 10 packets in all as described on this page, to any address in the United States, postpaid for only 55c; 2 collections for $1.00.

F. B. MILLS, Seed Grower
ROSE HILL, N. Y.

Giant Minerva
Flowers giant in size with frilled and slightly frilled. The flowers are carried on stems well above the leaves and make splendid cut flowers. Pkt. (about 53 seeds), 10c; 3 pks., 25c.

Giant Golden Yellow
The finest orange and large size of flowers make this variety unusually attractive for beds and borders. The flowers are a rich shade of golden yellow, delicately shaded. Pkt. (about 60 seeds), 10c; 3 pks., 25c.
Highest Quality---Lowest Prices

Mill Seeds are raised with the greatest possible care and I do not think there are any better seeds produced. They are tested for Vitality and Purity before being sent out in order to make them safe for planting. Every variety I offer is described as accurately as possible, and time of maturity given as nearly correct as I can give, varying somewhat in different sections of the United States, but based on my thirty-nine years experience. Nearly all illustrations in this book have been made from actual photographs.

My prices are right, taking into consideration the saving of expenses I make by issuing a small Seed Book, and also by doing business in my own buildings at Rose Hill, N. Y., where mail is received and dispatched twice daily direct to Railway Mail Trains, as compared with many City Seedsmen who are under heavy expenses for very large expensive catalogs, rents and other expenses I am able to save, giving the benefit to my customers.

Read My Double Guarantee

First—I guarantee the Vitality and Purity of my seeds to the full extent of the purchase price. Even with the highest quality seeds success in gardening and farming depends largely upon soil, cultivation and weather conditions. It is therefore agreed that in no case shall I be liable for more than the amount actually paid for the seeds or bulbs, and if not accepted on these conditions they must be returned at once.

Second—I guarantee the safe arrival of all seeds and bulbs in good condition and should anything be lost on the way I will refund when proof is furnished of non-arrival. This is the Double Guarantee that protects all who purchase Mills Seeds and Bulbs.

My Motto is—"Never send out any seeds or bulbs which I do not know that I myself would be thoroughly satisfied with, were the position of buyer and seller reversed."

Seeds and Bulbs Delivered by Parcel Post

All seeds offered in this Seed Book by the packet, ounce, pound or fraction of a pound, or any quantity of bulbs, will be delivered to your post office at the prices given, entirely postpaid.

Leaflets on Culture Free With Order if Asked For

How to Order

Please sign your name and full address on every order or letter you send me, and write very plainly and use my Order Sheet when ordering, if possible,

I have been doing a strictly cash-with-order business for thirty-nine years and you run no risk in sending money with order. I refer you to my hundreds of thousands of customers all over the United States. No seeds sent C. O. D.

Remit at my risk by Money Order, Draft or Check. Use Registered Letter if you send Cash or Stamps.

Customers outside the United States must add 20 per cent of my catalog prices for the extra postage and packing required. No foreign postage stamps or coin accepted.

Surprise Collection of Vegetable and Flower Seeds

20 packets vegetables—10 packets flowers—for $1.00.

My seed crops have been large, which enables me to make up a lot of SURPRISE COLLECTIONS containing the following:

- 1 pkt. Beans
- 1 pkt. Carrots
- 1 pkt. Cucumber
- 1 pkt. Pop Corn
- 1 pkt. Watermelon
- 1 pkt. Mustard
- 1 pkt. Onion
- 1 pkt. Lettuce
- 1 pkt. Green
- 1 pkt. Pumpkin
- 1 pkt. Spinach
- 1 pkt. Parsnip
- 1 pkt. Tomato
- 1 pkt. Rutabaga
- 10 plts. Flowers Seeds

All my selection of ten different varieties of flowers that will grow and bloom freely from seeds.

Remember this SURPRISE COLLECTION is of my own selection, all regular size packets, 30 in all, no two like, and will be a real SURPRISE to every purchaser. I have such large crops of many kinds of seeds it enables me to make this remarkable offer. These seeds will plant a garden 30 x 50 feet. Try them this year. In ordering just ask for the SURPRISE COLLECTION for $1.00.
Seeds of These Beautiful Flowers Given Away

READ THIS OFFER

Beautiful Asters have been my specialty for years and I have supplied my customers with millions of packets of the seed. As you know, Asters are very popular and are the Queen of Autumn Annuals. They make such a brilliant show, furnishing a constant supply of cut flowers until killed by frost; and are so easily raised from seed, that I want every customer to grow some of these Asters this year.

I have an unusually large crop of seed of the most beautiful, artistic and robust varieties of the wonderful Aster family, as shown from photographs on this page, and will present absolutely free, 1 packet each of the 14 varieties described on this page to every customer sending me an order for $1.00 or over from this Seed Book.

Remember, this is the most liberal offer I have ever made to my customers. Think of it—14 packets in all, about 700 Asters seed with a leaflet "How to Grow Beautiful Asters," entirely free to every customer whose order amounts to $1.00 or more.

I want these Asters grown by every one of my customers, so do not let this offer pass. Send me an order as early as possible, or before the planting season is over, for $1.00 or more and these 14 packets will be included free. When you order just ask for Free Asters Seeds.

F. B. MILLS, Seed Grower, Rose Hill, N.Y.

American Branching A strong growing, branching freely, flowers large and double, on long stiff stems.

Rose Pink. Pkt. (about 50 seeds.)

Peerless Yellow. The best yellow Aster. Flowers large, full and rounded, of a beautiful chrysanthemum yellow color. Should be largely planted.

Pkt. (about 50 seeds.)

Giant Branching Comet. Heights grow branching freely, stems long, flowers large, petals curved and twisted.

Dark Blue. Pkt. (about 50 seeds.)

New Astermum. A beautiful new race of Asters, plants of strong upright growth, flowers large with long graceful petals.

Lavender. Pkt. (about 50 seeds.)

New Red Sensation. Called the red sensation of all red Asters, producing many flowers on a strong plant, of a rich scarlet or ox-blood red. Very beautiful. Pkt. (about 50 seeds.)

Earliest Blooming. Earliest of all, total two weeks ahead of other sorts. Plants of a graceful spreading habit.

Crimson. Pkt. (about 50 seeds.)

King or Needle. Entirely distinct, flowers large and double, petals quilted. Very odd and striking.

Crimson. Pkt. (about 50 seeds.)

Daybreak. This is a wonderful aster. A strong grower, producing great quantities of flowers on strong stiff upright stems.

Lavender. Pkt. (about 50 seeds.)

Lady Roosevelt. The plant is a strong grower, the flowers are large on long stiff stems.

Rose Pink. Pkt. (about 50 seeds.)

Pink Enchantress. Very vigorous, producing large flowers on a soft delicate pink, always full double. A very beautiful Aster.

Pkt. (about 50 seeds.)

Giant Crego. A monster among the Asters. Strong growing, branching freely, stems long, flowers large, petals curled and twisted.

Purple. Pkt (about 50 seeds.)

Heart of France. Plant a strong grower, the branching freely. Bears large of a striking brilliant ruby-red color. One of the most beautiful sorts.

Pkt. (about 50 seeds.)

Ostrich Feather. A strong grower, producing masses of full flowers on long stiff stems, petals gracefully curved and twisted.

White. Pkt. (about 50 seeds.)

Silvery Rose. A new variety with long stems, large flowers of a deep lilac-rose, almost crimson color, very distinctly; threaded with white.

Pkt. (about 50 seeds.)
Bush Beans

Notice 1 offer Beans by the packet, half pound and pound, instead of by the pint and quart.
One-half pound equals about 1/2 pint.
One pound equals about 1 pint.
Two pounds equals about 1 quart.
Fifteen pounds equals 1 peck.
Sixty pounds equals 1 bushel.

Giant Stringless Green Pod
This is a very popular green pod Bean and one of the best. The plants are of strong growth, very productive, pods about 3 inches long, light green, slightly curved, very meaty and absolutely stringless. No better variety for the home garden on account of its fine flavor and brittleness. Ready for picking in about 45 days.
Pkt. (about 100 seeds), 6c; 3 pkts., 15c; 1/2 lb., 22c; lb., 40c; 3 lbs., $1.15, postpaid.

Bountiful Bush (Green Pod)
Remarkably Prolific and Continuous Bearing. This Bean is a great favorite wherever known. Plant is of thrifty growth and practically rust and mildew proof. It is extremely early, very prolific, hardy, and bears continuously for several weeks. It is the first to give pods fit to pick in the spring and about the last to yield edible pods in the fall. The rich, green pods, which are of large size, thick, broad, and extra long, uniform in shape, solid and meaty, are absolutely stringless. Ready for picking in about 45 days.
Pkt. (about 100 seeds), 6c; 3 pkts., 15c; 1/2 lb., 22c; lb., 40c; 3 lbs., $1.15, postpaid.

Rainbow Collection of Gladioli
Plant a liberal supply of my Rainbow Collection of Gladioli, 160 or more bulbs, if you possibly can, and you will have a wonderful display of gorgeous flowers. See outside back cover for colors, description and prices.
**POLE BEANS**

**Golden Cluster Pole Wax**

The greatest Yellow - Podded Pole Bean in cultivation. As shown by the photograph it produces great quantities of stringless golden-colored wax pods 5 to 7 inches long, pods being produced in clusters of from 4 to 6 all over the vine. The pods are thick, fleshy, and of delicate flavor, and if kept picked off and not permitted to ripen the vines will bear continuously until late in October. Ready in about 75 days.

Pkt. (about 60 seeds), 8¢; 3 pkts., 25c; 1 lb., 35c; 2 lb., 50c; 3 lbs., $1.35, postpaid.

**Giant Podded Pole Lima**

This is the very earliest Pole Lima and also extremely productive. It is a strong grower, producing well to the pole and is a sure cropper. The pods hang from the foliage in large clusters and contain from 3 to 4 and sometimes even more big fat buttery pods to the pod, of the finest quality. It is extremely productive throughout the season. For 2 Pole Lima plants this is the one. Ready in about 80 days.

Pkt. (about 30 large seeds), 8¢; 3 pkts., 25c; 1 lb., 35c; 2 lb., 50c; 3 lbs., $1.35, postpaid.

---

**New Guinea Gourd Bean**

The vine will climb an arbor or any support to a height of 20 to 25 feet, or it will run along on fences. Fruits grow from 3 to 4 feet in length and 4 to 6 inches in diameter. They are used in the same manner as Squashes and Egg Plant being sliced and fried.

One of my customers, Mr. Elmer Wills, sends me this photograph and writes as follows: "I enclose a picture of myself and Gourds, the three weighing 45 pounds, grown from seeds you sent me."

You should try this Bean for it is both useful and ornamental. Matures in about 100 days. Growing instructions on every packet.

Pkt. (about 15 seeds), 6c; 3 pkts., 15c; 7 pkts., 30c.

**Coffee Beans**

The Coffee or Soja Bean is a great yielder, and is easily grown in any ordinary garden soil where it is usually very prolific. The plant grows very strong as shown by the photograph, producing a great abundance of pods and beans. It is claimed by many that an excellent drink, very nearly equal to good Java Coffee can be made from these beans. I believe it is worth trying, and I have a limited quantity of seed stock to offer this season at attractive prices. It can be planted in May and cared for and harvested the same as other beans.

Pkt. (about 125 seeds), 6c; 3 pkts., 15c; 5 lb., 25c; 10 lb., 40c.

---

**Improved 1200-to-1 Bean**

I have been growing this Bean for several years endeavoring to improve it each season. The plants are of decidedly robust growth, branching freely, producing large clusters of pods in clusters with nearly round, medium sized, pure white beans, of the best quality. It ripens very evenly and if given good cultivation will mature its crop in about 65 days.

It is a sure cropper and has made wonderful records. Read the report of one of my customers, Mr. Chas. H. Fuller, Montpelier, Vt., as follows:

"I am enclosing a copy of a record I made of the 1200 to 1 Bean. From this you will see that I tried out these Beans in all kinds of soil."

Pkt. (about 60 beans), 10c; 3 pkts., 25c; ½ lb., 35c; 1 lb., 50c; 3 lbs., $1.15, postpaid.

---

**IMPROVED 1200 TO 1 BEAN**

---

Plant 100 or More Gladiolus Bulbs This Year—See Outside Back Cover
Table Beets

Mills Extra Early Blood Turnip Beet

This is a selected strain and I claim it is the finest main crop all-purpose Beet in cultivation. It is uniform in size, handsome in appearance and attracts attention everywhere. It is very early, the color being a rich red, and the quality is superb, being sweet, tender, and fine-grained. Splendid for canning, and its keeping qualities are excellent. Ready for use in 45 to 50 days from seed.

Pkt. (about 250 seeds), 4c; 3 pks., 10c; 6 pks., 15c; oz., 36c; ½ lb., 30c.

Crosby's Egyptian

A very popular Extra Early Garden Beet, and a money maker for market gardeners. This Beet is handsome in form, good-sized, small tops, very small tap root, fine quality, flesh deep red, and of quick, rapid growth. Ready for use in 45 to 50 days.

Pkt. (about 250 seeds), 4c; 3 pks., 10c; 6 pks., 15c; oz., 36c; ½ lb., 30c.

Early Pickling Blood Beet

This is one of the grandest of all Early Blood Turnip Beets. It is a small, round, uniform shaped variety. Color a glossy red and of exceptionally fine quality. The Beets are smooth, with small tap root. It is especially popular as a family beet for pickling or for greens. It is good for early planting for Spring and Summer use, and can be stored in the cellar for Winter use on account of its long keeping qualities. Ready for use in about 40 days.

Pkt. (about 250 seeds), 4c; 3 pks., 10c; 6 pks., 15c; oz., 36c; ½ lb., 30c.

Improved Long Red

The flesh is of a rich dark red, very sweet, crisp and tender. Sturdy dry weather better than most sorts, and is good for Fall and Winter use. Roots 8 to 10 inches long when matured, requiring 60 to 70 days.

Pkt. (about 250 seeds), 3c; 3 pks., 8c; 6 pks., 15c; oz., 36c; ½ lb., 30c.

Eclipse

This is an early Beet, of round, uniform shape and of very fine quality. Color is a glossy red. Roots are smooth with very small tap root. A popular family beet and desirable for greens. Ready for use in 42 to 45 days.

Pkt. (about 250 seeds), 4c; 3 pks., 10c; 6 pks., 15c; oz., 36c; ½ lb., 30c.

Mangels - For Stock Feeding

5 pounds will sow an acre in drills.

Mills Mammoth Prize Long Red Mangel

The most popular red Mangel, sometimes called "Giant" or "Jumbo." Often grows from 24 to 30 inches in length, weighing from 20 to 30 lbs. This variety will yield more tons per acre than any other and is one of the best for stock feeding during Winter.

Pkt. (300 to 400 seeds), 4c; 3 pks., 9c; oz., 12c; ½ lb., 25c; ½ lb., 36c; 1 lb., 65c; 5 lbs., $3.00, postpaid.

Golden Tankard Mangel

The most desirable Yellow Mangel, bearing a yel- low color from 1,000 to 2,000 bunches per acre on good soil. Quality high and is greatly prized by dairy farmers.

Pkt. (300 to 400 seeds), 4c; 3 pks., 9c; oz., 12c; ½ lb., 25c; ½ lb., 36c; 1 lb., 65c; 5 lbs., $2.25, postpaid.

Giant Half Sugar Mangel

Considered by many more valuable for feeding purposes than the other Mangels. Yields nearly as much per acre, roots large, oval in form, with small top, flesh white. This Mangel is the best Mangel yet produced.

Pkt. (300 to 400 seeds), 4c; 3 pks., 9c; oz., 12c; ½ lb., 25c; ½ lb., 36c; 1 lb., 65c; 5 lbs., $2.25, postpaid.
Cabbage

My list is made up of the very best Early, Medium, and Late Crop varieties. Seed is all carefully tested.

In the Northern and Central States for early use sow seeds of the early kinds in a box in the house or a hotbed in February or March. Transplant to the open ground in April or May, or sow a bed outside as soon as soil can be worked. For second early or late Cabbage sow in April or May and transplant in June or July.

LeaFlet
"How to Grow Cabbage and Cauliflower," free with order, if asked for.

Mills 60-Day
The Earliest Hard Headed Cabbage in Cultivation. This is a great variety and should be planted in every garden. 60-Day is just what its name implies and has produced heads in 60 days from sowing of the seed under favorable conditions and I am sure it will please all who grow it. The heads are pointed, fair sized, very solid, and just right for market gardeners, truckers or home gardens, for it will readily sell in any market. It can be planted closer than most varieties of Cabbage, and almost every plant is sure to form a perfect head if sufficiently fertilized and cared for.

Pkt. (about 300 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 30c; 1/2 lb., $1.00.

Early Spring
It is described by many as having the first early flat head Cabbage. It is of the Allhead Early type resembling it in habit of growth but a little smaller. It is round in shape, slightly flattened, very solid even before the heads attain their mature size. Ready in about 85 days.

Pkt. (about 100 seeds), 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 55c; 1/2 lb., 35c.

Try This Cabbage

Chinese Cabbage
Resembles celery, yet it is something like a Lettuce. Firm, crisp, easily blanched, excellent as greens or salad.

Pkt. (about 250 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c.

Copenhagen Market
A splendid early Cabbage from Denmark, producing a large globe-shaped head averaging about 8 lbs. in weight with few loose leaves, permitting close planting. It is a vigorous grower and an excellent keeper. Does well in the South. Ready for market in about 60 days. Pkt. (about 250 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 50c; 1/2 lb., $1.00.

Early Jersey Wakefield
Cabbage
This is a very popular sort and needs no description. The heads are usually hard and solid, generally pointed at the ends with but few outer leaves. I offer a very fine strain which matures in about 90 days from the sowing of the seed.

Pkt. (about 500 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 30c; 1/2 lb., 75c.

World Beater
THE GIANT OF ALL CABBAGE
This is one of the stoutest of the main crop Cabbages. Enormous in size, and one of the best keepers. It often produces heads from 3 to 31/2 feet in circumference, which are rounded on top, very firm and solid, and a good keeper. The heads are fine grained and it is considered the king of winter Cabbage. The absence of any large outer leaves permits more plants to the acre than most large, late varieties, and this feature makes it prime for home gardens, and it is also sure to produce more per acre when grown for market. It is probably the largest heading of all Cabbage but requires strong soil for the best results. Ready for market in 110 to 120 days.

Pkt. (about 500 seeds), 5c; 3 pkts., 15c; 6 pkts., 25c; oz., 30c; 1/2 lb., $1.00.
Mills Giant Late Flat Dutch Cabbage

This is the hardest of all Cabbages, being especially desirable for shipping. The hardness, solidity, and weight of heads is truly wonderful and heads of equal size will weigh quite a little more than other varieties. A grand variety for storing, if market prices are not satisfactory in the fall. It is few outer leaves which admit of close planting. Heads are medium sized and specially recommended for growing for market purposes in the Northern states. A very popular variety. Matures in about 120 days.

Pkt. (about 500 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 30c; lb., 60c.

Table Spoons

Black Beauty

Ears are fair sized and the kernels rounded and smooth, not sharp and pointed like White Rice. It is quite early, and although the kernels are black, they show up nice and white when popped, buttery tender and crisp. Matures in about 120 days.

Pkt. (about 100 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 30c; lb., 50c.

Try my Surprise Collection Vegetable and Flower seeds, page 1.

Be sure and sign your name and address to every order so you will get your seeds promptly.

Quick Pop

A very early variety, producing from 2 to 4 perfect ears on a stalk, of a beautiful golden yellow color. This corn is very quick to pop, hence its name, and the kernels expand to a large size when popped. Matures in 90 to 100 days.

Pkt. (about 100 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c.

Australian Hulless

Also known in some sections as Japanese Rice or Tom Thumb Pop Corn. It is a heavy yielder, has attractive ears. Peculiar in form, being nearly as thick as long, as shown by the photograph. The kernels are similar to White Rice only longer and slimmer and pearly white in color, but its crowning merit lies in its popping quality and fine flavor. It deserves special attention and you should try it. Matures in about 130 days.

Pkt. (about 100 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c.

American Wonder

Truly a Wonder for Size.

This is the largest Pop Corn I have ever known. It is truly a wonder for size, quality, and yield. Stalks grow very strong, producing from 2 to 4 perfect ears from 2 to 10 inches long as shown by the photograph. The kernels are large, nearly as large as an early Flint Field Corn, of a beautiful pearly white color, and pop nearly twice the size of any other Pop Corn, being tender and of delicious flavor. It is a surprise to all those who have never seen this corn. Matures in about 120 days. Do not fail to try it.

Pkt. (about 100 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 30c; lb., 50c. postpaid.
Sweet or Sugar Corn

For first early plant First of All; second early, Golden Bantam and Golden Evergreen; for late crop, Country Gentleman and the Evergreens. Sweet Corn can be raised on any good ordinary soil if it is thoroughly worked before planting, but a rich, warm soil is best. Give frequent and thorough cultivation until the tassels appear.

Golden Bantam
The most famous Sweet Corn in cultivation. The stalks grow only 4 to 5 feet high, usually bearing 2 or more ears to a stalk. When ears are ready for use they are a creamy yellow in color, being rich, sugary, and sweetest of all. Golden Bantam is suited for extra early and late plantings up to July 15th. Ready to use in 60 to 70 days.

Pkt. (over 100 seeds), 5¢; 3 pkts., 12¢; ½ lb., 22¢; 1 lb., 48¢; 3 lbs., $1.00, postpaid.

Mills First of All
It is one of the earliest Sweet Corns for the home garden. Its being a few days earlier than all others not only makes it valuable for family use but extremely valuable for market. It is rather dwarf in growth but produces good sized ears of superior quality, tender and sweet. My customers plant this variety very extensively every year. Under favorable conditions, matures in about 55 days.

Pkt. (over 100 seeds), 5¢; 3 pkts., 12¢; ½ lb., 22¢; 1 lb., 48¢; 3 lbs., $1.00, postpaid.

Golden Evergreen
This new variety combines the size of ear of the Evergreen type with the color and delicious quality of the Golden Bantam. The ears are of good size, well filled with deep kernels of rich yellow color. In quality it is equal to the famous Golden Bantam. For the home garden and fancy market trade it is a great Corn, furnishing such large ears of such superior quality and sweetness. Ready to use in 75 to 80 days.

Pkt. (over 100 seeds), 5¢; 3 pkts., 12¢; ½ lb., 28¢; 1 lb., 55¢; 3 lbs., $1.00, postpaid.

Stowell’s Evergreen
The old well-known variety for home use, market, and canning. The grains are of good size, long and slender, and it is highly recommended on account of its sweetness and good canning qualities. Ready in 90 to 100 days.

Pkt. (over 100 seeds), 5¢; 3 pkts., 12¢; ½ lb., 28¢; 1 lb., 55¢; 3 lbs., 90¢; postpaid.

Country Gentleman
One of the finest and sweetest of all Sweet Corns for the table. As shown by the photograph the kernels on the cob are irregular, plump, pearly white, and tender. Ear average 7 to 9 inches in length, cob small, and grain is very deep. Another good point is its prolificacy, rarely producing less than 3 ears to the stalk. Ready to use in 80 to 85 days.

Pkt. (over 100 seeds), 5¢; 3 pkts., 12¢; ½ lb., 22¢; 1 lb., 48¢; 3 lbs., $1.00, postpaid.
Mills Champion Yellow

Flesh dark reddish orange color, tender and sweet. A heavy cropper, maturing in about 75 days. Good for table use or for stock feeding.

Pkt. (over 1500 seeds), 4c: 3 pkts., 10c: 6 pkts., 15c: oz., 10c: 1/4 lb., 25c.

Earliest Scarlet Forcing

The earliest of all Carrots and best for forcing, also suited for home garden for quick crop. Roots grow nearly round, 2 to 2 1/2 inches in length, of rich orange red, ready to use in about 55 days.

Pkt. (over 1500 seeds), 4c: 3 pkts., 10c: 6 pkts., 15c: oz., 12c: 1/4 lb., 25c.

Orange Danvers

Orange Danvers

Roots measure 1 1/2 to 2 inches in diameter at the top by 5 to 7 inches in length. The flesh is fine grained, sweet flavor, of a beautiful rich orange color. Fine variety for winter storage. Matures in about 75 days.

Pkt. (over 1500 seeds), 4c: 3 pkts., 10c: 6 pkts., 15c: oz., 10c: 1/4 lb., 25c.

Improved Long Orange

Improved Long Orange

Roots grow uniform and smooth 8 to 10 inches long, of large size and deep, rich, orange color. It is a good keeper and fine quality for winter use. Grown extensively for stock feeding. Matures in about 75 days.

Pkt. (over 1500 seeds), 4c: 3 pkts., 10c: 6 pkts., 15c: oz., 10c: 1/4 lb., 25c.

Golden Beauty Carrots

A splendid table variety, growing from 5 to 7 inches long. The flesh is a beautiful rich orange color, tender and fine grained, free from hard core. It is medium early, with small tops. A splendid keeper and ready for table in 60 to 65 days.

Pkt. (over 1500 seeds), 4c: 3 pkts., 10c: 6 pkts., 15c: oz., 10c: 1/4 lb., 25c.

Mastodon

Mastodon

Suited for shallow soil but an enormous cropper. Root large pure white, smooth, rich flesh and solid, best for stock feeding. Matures in about 90 days.

Pkt. (over 1500 seeds), 4c: 3 pkts., 10c: 6 pkts., 15c: oz., 10c: 1/4 lb., 25c.

Golden Beauty Carrots.

Forcing Roots

Forcing Roots

Can be harvested and used like spinach. Sow early in spring for summer use, or July or August for fall use. It is ready for table in 60 days.

Corn Salad or Fetticus

A good salad, especially for winter use. Can also be cooled and used like spinach.

Sow early in spring for summer use, or July or August for fall use. It is ready for table in 60 days.

Pkt. (about 1500 seeds), 4c: 3 pkts., 10c: 6 pkts., 15c: oz., 10c: 1/4 lb., 25c.

Endive

Endive

Sow early in spring and the plants reach winter size in 60 to 65 days.

Green Curled

Green Curled

Leaves tender, green but bleached white. Pkt. (about 1500 seeds), 4c: 3 pkts., 10c: 6 pkts., 15c: oz., 25c.

Broad Leaved Batavian

Broad Leaved Batavian

Leaves large and broad. Use for salads. Pkt. (about 1500 seeds), 4c: 3 pkts., 10c: 6 pkts., 15c: oz., 25c.
**Celery**

**Dwarf Golden Heart**
Half dwarf sort, producing handsome, glistening, rich green stalks, to a height of 10 to 12 inches; very crisp, tender, and of excellent flavor, and good keeper. Matures in about 115 days. Pkt. (over 1500 seeds), 5c; 3 pkts., 15c; 6 pkts., 25c; oz., 35c.

**Mills Celery Mixture**
Contains a splendid selection of varieties suitable for the home garden which are easily blanched. Matures in about 115 days. Pkt. (over 2000 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 35c.

**Golden Self-Blanching**
This variety is the standard for winter use. Plants are of strong vigorous growth, very stocky habit, with solid, thick, and very broad leaf-stalks. It is rich dark green in color. Matures in 110 to 115 days. Pkt. (over 1000 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 35c.

**Giant White Solid**
This is a beautiful type, not only does the stem whiten but especially every leaf blade, making an attractive white Celery. It is tender, brittle, and sweet-flavored. Valuable for fall and early winter use. Ready to eat in about 120 days. Pkt. (over 1500 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c.

**Giant Pascal**
One of the best sorts for winter use at home or for nearly market use. It is too crisp for shipping. The stalks are remarkably long, crisp, and brittle, and have a sweet, nutty flavor. Matures in 110 to 120 days. Pkt. (over 1000 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 35c.

**Celery**

**Broccoli**
**Hardy Cauliflower**
LARGE WHITE. Cultivate and use same as Cauliflower. Produces large white heads which remain in good condition longer than Cauliflower. Ready for table in 100 days. Pkt. (150 to 200 seeds), 6c; 3 pkts., 15c; 6 pkts., 25c.

**Brussels Sprouts**
PERFECTION. One of the best vegetables for fall and winter use. Planted about 2 feet high, thickly set with good sized "sprouts" of fine flavor. Ready for table in 110 to 120 days. Packet (250 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; oz., 25c.

**Mustard**
Used for flavoring in pickles. White. Pkt. (1000 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; oz., 25c. Black. Pkt. (1000 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; oz., 25c.

**Celeriac or Turnip-Rooted Carrot**
Forms a turnip-shaped root with flavor of fine Celery. Splendid for stews, soups, and salads, or boiled like Parsnips. Easily grown. Pkt. (1000 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c.

**Dandelion**
Are used for "green" and very popular as a spring tonic. Pkt. (500 seeds), 5c; 3 pkts., 15c; 6 pkts., 25c.

**White Plume**
Offers a very fine strain which is the earliest and most easily blanched of any Celery in cultivation. It grows rapidly, being easily blanched through the summer months, but is not as long keeper as some sorts. Matures about 110 days. Pkt. (over 1500 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 35c.

**Golden Self-Blanching**
This variety is the standard for winter use. Plants are of strong vigorous growth, very stocky habit, with solid, thick, and very broad leaf-stalks. It is rich dark green in color. Matures in 110 to 120 days. Pkt. (over 1000 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 35c.

**Cauliflower**

**Mills Early Favorite**
The best sort for inexperienced growers, as it will head when conditions are unfavorable. It may be used either for an earl or a late crop and is ready in about 110 days. It forms large, firm, fine-grained heads, very white in color. Pkt. (150 to 200 seeds), 6c; 3 pkts., 15c; 6 pkts., 25c; 1/2 oz., 75c.

**Dry Weather**
This is a first-class variety, and is especially adapted for growing in dry locations where nearly all other varieties fail. It produces large, solid, pure white heads but like all other Cauliflowers it requires high culture. Ready in about 110 days. Pkt. (150 to 200 seeds), 6c; 3 pkts., 15c; 6 pkts., 25c; 1/2 oz., 50c.

**Early Snowball**
A popular extra early variety of dwarf, compact growth, good for both early and late planting. Makes a fine, solid pure white head of good size. Matures in about 100 days. Pkt. (about 150 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; 1/2 oz., 50c.

**Broccoli**

**Collards**
TRUE GEORGIA. Forms a large open head of leaves on a tall stem. Extensively used in the South where it furnishes an abundance of food for the table or for stock. Ready in about 90 days. Packet (about 500 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; oz., 40c.

**Chicory**
WITLOOF. Used as a winter salad. Sow seed in open ground or under a glasshouse in March. Lift the roots in the fall and store in cool place until wanted for forcing. Force in any warm cellar or room. Pkt. (250 seeds), 6c; 3 pkts., 15c; 6 pkts., 25c.
Cucumbers

Special Mixture This mixture is made up of all kinds and by planting it you will have an abundance of cucumbers for slicing and pickling all summer. All Kinds Mixed, pkt. (about 150 seeds); 4c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c; 1/2 lb., 35c.

Mills Earliest Everbearing but will continue in bearing throughout the season. The fruits are a rich deep green color, medium in size, being produced in abundance, close set on strong vines. Flesh white, very firm and crisp. It is the first to come and the last to go bearing all the time. Ready to use in 60 to 69 days.

Pkts. (about 150 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c; 1/2 lb., 35c.

Japanese Climbing This variety originally came from Japan. Young plants grow strong and bushy and as soon as they become well established begin to climb or creep, and may be grown on fences, poles or trellises. Fruits are from 12 to 15 inches in length, skin smooth, dark green, flesh pure white, crisp, and mild flavor. Can be picked in about 55 days.

Pkts. (about 150 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c; 1/2 lb., 35c.

Davis Perfect A very fine cucumber for market as well as for the home garden. Fruits grow from 7 to 9 inches long, tapering at both ends with an intensely dark green skin.

Fancy Pickles One of the grandest of all pickling Cucumbers. Fine in form, solid, and very early. If fruits are kept gathered, the vines will continue in bearing throughout the season. Dark green in color, from 3 to 5 inches long. One of the best small pickles.

Pkts. (about 150 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c; 1/2 lb., 35c.

Nichols Medium Green Handsome variety, straight and smooth, excellent for pickling and good for slicing when mature. Matures in about 55 days.

Pkts. (about 150 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c; 1/2 lb., 35c.

Mills Earliest White Spine A special strain of White Spine which is most desirable for its extreme earliness. It is very productive and good for forcing as well as for the home garden, fruits uniform in size, flesh white, crisp and solid. Ready in about 50 days.

Pkts. (about 150 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c; 1/2 lb., 35c.

Lemon Similar in shape to a lemon; when ripe of same color. Skin smooth, flesh white, tender, crisp, and sweet. An interesting novelty, quite early.

Pkts. (about 150 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c; 1/2 lb., 35c.

Mills Earliest White Spine

Improved Long Green This is a well known variety and very popular. Fruits grow from 10 to 16 inches in length and are of superior quality. Flesh very firm and crisp. The young fruit is used very largely for pickling and full-sized Cucumbers are largely used for slicing and for making the so-called sweet pickles when the fruits are ripe and yellow. Ready to pick in about 65 days.

Pkts. (about 150 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c; 1/2 lb., 35c.

Early Fortune One of the finest cucumbers of the White Spine type, fruit 7 to 9 inches long, flesh white, firm, and crisp. Ready in 60 days.

Pkts. (about 150 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c; 1/2 lb., 35c.

Improved Long Green

Long China Cucumber Remarkable new long green cucumber from China. When mature they average from 12 to 20 inches long, and 2 to 3 inches in diameter, flesh solid, crisp, good flavor. Vines strong and vigorous, matures in from 65 to 70 days. Do not fail to try this wonderful variety.

Pkts. (about 50 seeds), 6c; 3 pkts., 15c; 6 pkts., 25c.
## Lettuce

To have the best Lettuce it should be kept growing rapidly, giving plenty of sunlight and moisture. A light, rich soil is best. For a succession plant every two or three weeks.

### Black Seeded Simpson

**Large curled or loose leaf Lettuce, very tender, crisp, fine quality and sweet flavor. Ready in 60 days.**

*Pkt.* (over 1000 seeds), 5¢; 3 pkts., 12¢; 6 pkts., 20¢; oz., 25¢.

### Mills Earliest or 12-Day Lettuce

The earliest, standing frost to a remarkable degree. I know of no other Lettuce that can approach it for extra earliness, hardness, and growth. Leaves are heavily fringed and crumpled, light green color, crisp, and tender. Ready in 30 to 40 days.

*Pkt.* (over 1000 seeds), 5¢; 3 pkts., 12¢; 6 pkts., 20¢; oz., 25¢.

### Early Prizehead

Leaves very large, bright green fringed, with brownish red at the edges, forming a large loose head, very tender, crisp, and sweet. Ready in about 45 days.

*Pkt.* (over 1000 seeds), 5¢; 3 pkts., 12¢; 6 pkts., 20¢; oz., 25¢.

### Mills Earliest or 12-Day Lettuce Collection

One sowing produces a salad for the entire season. My collection is a grand assortment of all the different early, medium, and late sorts, just right for the home garden, all being crisp and tender. Ready in 30 to 40 days.

*Pkt.* (over 1000 seeds), 5¢; 3 pkts., 12¢; 6 pkts., 20¢; oz., 25¢.

### All-Seasons Lettuce Collection

In order to keep Lettuce crisp, place the roots in cold water but do not cover the leaves until washing for serving, and then rinse in a pan of ice water if possible.

---

### Grand Rapids

A curled or loose leaf Lettuce of rapid, upright growth, retaining its freshness a long time after being cut, good for forcing, crisp, and sweet. Not liable to rot, standing several days after being ready to cut without injury. Ready in about 40 days.

*Pkt.* (over 1000 seeds), 5¢; 3 pkts., 12¢; 6 pkts., 20¢; oz., 25¢.

### Big Boston

Large head variety, grown all over the country both North and South for market. Forms big, tender, and crisp heads of rich yellow color, inside of fine quality. It is adapted to open ground for summer and fall use or to growing in frames to force. It withstands adverse weather conditions. Ready in about 55 days.

*Pkt.* (over 1000 seeds), 5¢; 3 pkts., 12¢; 6 pkts., 20¢; oz., 25¢.

### Improved Hanson

Forms large heads having a sweet rich flavor, good from earliest spring until late in fall. A sure-heading sort standing the heat remarkably well. Ready in about 50 days.

*Pkt.* (over 1000 seeds), 5¢; 3 pkts., 12¢; 6 pkts., 20¢; oz., 25¢.

### Romaine or White Cos

Leaves being well folded toward the center, bleaches almost pure white, is crisp, and tender. Ready in about 55 days.

*Pkt.* (over 1000 seeds), 5¢; 3 pkts., 12¢; 6 pkts., 20¢; oz., 25¢.

### Romaine or Cos Lettuce

### Kale or Borecole

Splendid “Greens” for early fall, winter or spring use.

**DWARF GREEN CURLED.** Plant is dwarf and compact, with large, deep green leaves curled and crumpled. Ready to cut in about 60 days.

*Pkt.* (100 to 200 seeds), 5¢; 3 pkts., 12¢; 6 pkts., 18¢; oz., 30¢.

**Okra or Gumbo**

**WHITE VELVET.** Pods round, smooth, of white velvet appearance, very tender, nice for soups, stews, etc. Ready in about 65 days.

*Pkt.* (over 50 seeds), 3¢; 3 pkts., 12¢; 6 pkts., 18¢; oz., 25¢.

---

### Kohl Rabi

Finer flavor and sweeter than Turnips.

Sow seed in spring and again in June and July.

### EARLY WHITE VIENNA

Flesh white and tender, excellent variety, ready in about 60 days.

*Pkt.* (200 to 300 seeds), 5¢; 3 pkts., 12¢; 6 pkts., 18¢; oz., 30¢.

### EARLY PURPLE VIENNA

Skin purple, flesh pure white, tender, and fine flavored. Ready in about 65 days.

*Pkt.* (200 to 300 seeds), 5¢; 3 pkts., 12¢; 6 pkts., 18¢; oz., 30¢.
Radishes

Mills Earliest or 15-Day

If you wish to have the first Radishes sow this one. The skin is a rich scarlet color, flesh pure white, tender, mild and sweet. It is a favorite wherever grown.

Pkt. (about 500 seeds), 4c; 3 pkts., 10c; 6 pkts., 16c; oz., 15c; ½ lb., 25c.

Mr. Joseph Schuman of Brown Co., Ohio, writes: I am sending you a sample of Radishes that I raised from the trial package of seeds you sent me when I ordered my garden seed from you last spring. They are truly a fine Radish and are ready in from 12 to 15 days after planting.

California Mammoth

White Winter

The best of all large white Radishes. Grows very large, skin white, flesh solid, crisp, and sweet as turnip. May be used in all stages of growth.

Pkt. (400 to 500 seeds), 4c; 3 pkts., 10c; 6 pkts., 16c; oz., 12c; ½ lb., 25c.

Rose China Winter

Very handsome, of medium size, rose colored. Flesh white and mild for a winter radish. Mixtures in about 60 days.

Pkt. (about 500 seeds), 4c; 3 pkts., 10c; 6 pkts., 16c; oz., 10c; ½ lb., 25c.

Long Scarlet Short Top

Roots long, straight, smooth, rich scarlet color very crisp and a quick grower. Ready in about 35 days.

Pkt. (about 500 seeds), 4c; 3 pkts., 10c; 6 pkts., 16c; oz., 10c; ½ lb., 25c.

Crimson Giant

Grows larger than any of the early round sorts. A beautiful deep crimson color, often measuring 5 to 6 inches in circumference. Flesh is white, firm and crisp, mild in flavor, maturing in about 50 days.

Pkt. (about 500 seeds), 4c; 3 pkts., 10c; 6 pkts., 16c; oz., 10c; ½ lb., 25c.

All-Seasons Mixture

This mixture contains a great collection of all kinds, colors, and shapes, for the home garden, specially where the space is limited. One sowing is all that is required for a continuous supply, as they become ready for use from about 18 to 50 days.

Pkt. (400 to 500 seeds), 4c; 3 pkts., 10c; 6 pkts., 16c; oz., 10c; ½ lb., 25c.

French Breakfast

Just right for a small, crisp, table Radish. Of quick growth, oblong in shape, beautiful scarlet color except tip which is pure white. An old favorite for the home garden, ready to use in about 22 days.

Pkt. (400 to 500 seeds), 4c; 3 pkts., 10c; 6 pkts., 16c; oz., 12c; ½ lb., 25c.
**Watermelons**

**NEW WINTER WATERMELON**

The fruits of this new melon are of medium size, round, pale yellow when ripe, bright red; crystalline, sweet as honey. Seeds very small, black. Take from garden before frost and store in cool cellar. They will keep in perfect condition for at least 90 days. Matures in 90 to 100 days.

Pkt. (50 seeds), 3c; 6 pkts., 15c; oz., 25c.

**Baby Delight**

This melon is almost round and will weigh from 2 to 6 pounds, always solid, and of a very sweet flavor. It is very desirable for the home garden, especially in the North where other Watermelons will not mature.

Pkt. (50 seeds), 5c; 6 pkts., 25c; oz., 50c.

**Wonderful Sugar**

A large, oblong, dark green melon, with broad stripes of lighter shade. Flesh is very pink, solid, sweet, and delicious, very prolific and withstands weather conditions well. The skin is too delicate to withstand shipment but has become very popular as a home garden melon. It will mature in about 90 days.

Pkt. (50 to 75 seeds), 4c; 6 pkts., 25c; oz., 50c; lb., 75c.

**Tom Watson—The Best Shipper**

The Most Popular of All Watermelons

This new Melon, although of recent introduction, now occupies a very prominent place in all the markets. It is a large, round, variety covered with a fine netting giving it a most attractive appearance. The skin is thin but hard and tough so that it is unexcelled as a market and shipping melon. The flesh is intensely red in color, of superb quality. It is a great yielder and a money maker for all melon growers. The melons are large in size and heavy, averaging from 15 to 25 inches long by 8 to 12 inches in diameter and weigh from 60 to 80 lbs. I can highly recommend it as a main crop, and will mature in about 90 days.

Pkt. (50 to 75 seeds), 4c; 6 pkts., 25c; lb., 75c.

**Apple Pie Melon**

**Sweet Heart**

This is a large Watermelon nearly globular in shape, but a little longer than thick. The skin is a bright rounded green, the flesh red, firm, crisp, and exceedingly sweet. A good keeper, excellent shipper, and matures in about 80 days.

Pkt. (50 to 75 seeds), 4c; 6 pkts., 25c; oz., 50c; lb., 75c.

Plant Watermelon seed in hills 4 to 6 feet apart each way. 8 to 10 seeds in a hill, and after danger of insects is past, leave 4 or 5 strong plants in a hill. A light sandy soil and a sunny location is the best. Give frequent and shallow cultivation.

**Mills Earliest, Mills Earliest**

A Splendid Moon for the North

This is a splendid early Melon for the home garden as shown by the photograph. The skin is mottled with green and white. The flesh is red, sweet, juicy, and crisp. The weight varies all the way from 10 to 30 pounds, according to soil and weather conditions, but the average is from 15 to 20 pounds, which is exceptionally large for an early variety, maturing in about 70 days. This melon has been known to mature as far North as Canada.

Pkt. (50 to 75 seeds), 4c; 6 pkts., 25c; lb., 50c.

**The Quality Melon.**

**Wonderful Sugar Watermelon.**

**Citron.** This melon is used for making preserves. Matures in about 100 days.

Pkt. (50 to 75 seeds), 4c; 6 pkts., 25c; lb., 75c.

**Dixie Watermelon.**

**Sweet Heart Watermelon.**
**Kleckley Sweets**

One of the most popular, early, large Water Melons grown, and desirable to plant for home use or nearby markets. The fruits are very attractive, oblong in form and have a glossy dark green skin. The rind is thin and the flesh is a beautiful bright scarlet in color, crisp, and sunny. It gives satisfaction everywhere and I can recommend it for both North and South. Matures in about 85 days.

Pkt. (50 to 75 seeds), 4c; 3 pkts., 9c; 6 pkts., 15c; oz., 40c; lb., 50c; $1.00.

---

**Muskemelons**

Popularly known as Cantaloupes

---

**Yellow Meated Prize (ORANGE FLESH)**

This is an early Melon of the solid netted type and a very desirable one to grow. It has a very small seed cavity with thick, sweet, lucious flesh of a rich, orange color. It is a splendid keeper, and stands shipping well. Matures fruits in about 75 days.

Pkt. (150 to 200 seeds), 5c; 3 pkts., 15c; 6 pkts., 18c; oz., 9c; ½ lb., 30c.

---

**Mills Earliest (SALMON FLESH)**

One of the earliest and best salmon-fleshed Melons, and is excellent for the home garden or for shipping. Melons are a nice size and shape as shown by the illustration and the flavor cannot be surpassed. Flesh is very thick, fine grained, and of a rich luscious flavor. It is finely netted and a very even size.

Pkt. (about 200 seeds), 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 9c; ½ lb., 30c; lb., $1.

---

**Emerald Gem (SALMON FLESH)**

This is a beautiful Melon and is truly a gem. It is early but will not stand shipping any great distance to market, but is unequalled for home use or for nearby markets. If fruits are gathered as soon as they ripen, the vines will continue bearing throughout the season. The melons are slightly flattened. The skin is smooth and heavily ribbed. The flesh is very thick and acknowledged to be the most delicious in flavor while the seed cavity is small.

Pkt. (about 200 seeds), 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 9c; ½ lb., 30c.

---

**Montreal Market (GREEN FLESH)**

This well known Melon is of large size, often weighing 15 to 20 lbs. each. The skin is green and the flesh is light green in color and of delicious melting flavor. The vine is a very prolific grower and fruits mature in about 85 days. This melon commands high prices on the Eastern markets in the late fall months, and is a good shipper.

Pkt. (200 to 300 seeds), 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 9c; ½ lb., 30c.

---

**Netted Gem or Rocky Ford (GREEN FLESH)**

A well known profitable market melon. The vines are healthy and vigorous, producing an enormous quantity of fruit during the season, which are very uniform in size and shape. Skin a rich, greenish gold when fully ripe with fine netting. Flesh is light green in color, very deep, ripening clear to the rind, while the flavor is rich and luscious. Matures in about 75 days. Pkt. (200 to 300 seeds), 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 9c; ½ lb., 30c.

---

**Honey Dew (GREEN FLESH)**

The fruits are smooth, skin almost white, averaging about 6 inches in diameter by 7 to 8 inches long. The green flesh is thin and has a peculiar sweet flavor, something like that of honey. It requires a little warmer and longer seasons than other melons and are at their best when appropiately ripe.

Pkt. (about 100 seeds), 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 9c; ½ lb., 30c.
Golden Heart Muskmelon

As photo shows, grows nearly round, is medium early, flesh is thick, very tender and of a beautiful golden salmon color. The flavor is excellent, being very sweet and delicious. It ripens clear to the skin, and the thin rind is of a rich dark green color. The vines are very productive, fruits are early and cluster about the hill. As shown, Golden Hearts are nearly round and average about 5 inches in diameter. It is an excellent shipper, and is taking the lead in the market wherever introduced. It is a splendid keeper and a melon that is hard to beat, and every home garden should grow some of these superb melons. Will produce ripe fruits in about 90 days. Pkt. (150 to 200 seeds), 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 30c.

Jenny Lind (Green Flesh) This is the earliest sort and one of the sweetest. In size it is small, measuring from 3 to 5 inches in diameter. Seed cavity small. Vines are very prolific and mature fruits in about 60 days. Pkt. (150 to 200 seeds), 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 30c.

Mixed Muskmelons This is a splendid mixture of green, orange, and salmon-colored varieties, maturing from the very earliest to the latest varieties. By planting this mixture one is sure to produce some melons that are suited to their climate. Excellent assortment for the home garden. Pkt. (200 to 300 seeds), 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 30c.

Banana (Orange Flesh) Melon attains a length of 15 to 25 inches and a diameter of 3 to 4 inches, maturing in about 90 days. The flesh is deep yellow in color and of excellent flavor. It is a good melon for home use and the long fruits have a banana-like aroma, hence its name. Pkt. (500 to 600 seeds), 5c; 3 pkts., 10c; oz., 15c.

Santa Claus Casaba Often called the Winter Musk Melon and is in prime condition to eat during the holiday season. As shown by the illustration it looks like a mottled Musk Melon, and the rind is very hard, seeds being imbedded in the jelly-like pulp, there being no seed cavity. Pkt. (50 to 100 seeds), 5c; 3 pkts., 10c; 6 pkts., 15c.

Golden Beauty Casaba The melons are nearly round in shape, bright yellow with a golden tint and white, thick, and of excellent flavor. Many in about 120 days and excellent for storing for the winter season.

Queen Anne Melon A pretty, climbing variety, sometimes called Sweet Scented Pocket Melon or Pomegranate. The fruit is round, about the size of an orange, of yellow color, striped and spotted red. Flesh not edible, grown as an ornamental and is fragrant, perfuming a room for days. Trained on trellises or arbors it is very ornamental and easy to grow. Cultivate the same as Musk Melons. Pkt. (about 50 seeds).

Gourds

Japanese Nest Egg Gourd

Resembling in color, shape, and size, the ones of hens, being pure white in color. The matured gourd does not crack and will serve for years as a nest cup. A rapid grower, good climber and extremely ornamental and useful for covering arbors, screens, etc. Matures in about 75 days. Pkt. (25 to 50 seeds), 5c; 3 pkts., 10c; 6 pkts., 18c.

Odd Collection of Gourds

Here is a great mixture of rare, strange, and curious Gourds one would never think of seeing. The colors, shapes, and sizes include nearly everything to be found in the gourd family, and just what you will want to plant for a curiosity. Matures in 70 to 90 days. Pkt. (100 to 200 seeds), 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 15c.

Calabash Pipe Gourd

An attractive gourd which anyone can grow, and it can be used in making pipes. They are the lightest pipes made for their size, graceful in shape, color like parchment. The plants thrive and do well in all parts of the country, producing an abundance of these pipe gourds. The vine is very ornamental for covering fences, arbors, and trellises, etc. Matures in about 90 days. Pkt. (15 to 25 large seeds), 5c; 3 pkts., 10c; 6 pkts., 18c.

Gourds
Onions

Mills Selected Yellow Globe Danvers Onion

This is one of the most popular Onions for Winter market in many of the Northern States. It does not ripen as early as some Onions, consequently it continues in growth throughout the season, making very solid Onions. The large bulbs are well flattened but thick through as shown by the illustration. The outer skin is a deep, rich purplish red, smooth and glossy, flesh white, lightly tinged with purple, red, and very mild in flavor. Its splendid keeping qualities make it easy to hold crops for Winter prices. I offer the very best strain of Red Wethersfield which will mature in about 115 days.

Pkt. (over 500 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 30c; 1 lb., $1.00; 2 lb., $3.25.

Good Onion seed is very important—many poor strains are on the market. Onions are most suited to produce large crops under intensive cultivation, and I believe more dollars worth of Onions can be grown on an acre than any other crop. I have been supplying the best Onion seed to my customers for the past 20 years.

Large Red Wethersfield

Large Red Wethersfield Onion. This is one of the most popular Onions for Winter market in many of the Northern States. It does not ripen as early as some Onions, consequently it continues in growth throughout the season, making very solid Onions. The large bulbs are well flattened but thick through as shown by the illustration. The outer skin is a deep, rich purplish red, smooth and glossy, flesh white, lightly tinged with purple, red, and very mild in flavor. Its splendid keeping qualities make it easy to hold crops for Winter prices. I offer the very best strain of Red Wethersfield which will mature in about 115 days.

Pkt. (over 500 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 30c; 1 lb., $1.00; 2 lb., $3.25.

Good Onion seed is very important—many poor strains are on the market. Onions are most suited to produce large crops under intensive cultivation, and I believe more dollars worth of Onions can be grown on an acre than any other crop. I have been supplying the best Onion seed to my customers for the past 20 years.

Extra Early Red Onion

Extra Early Red Onion. An extra early red Onion, well flattened but quite deep. The bulbs are of medium size, rich red in color, very close-grained, solid and heavy. It will form bulbs in cold rocky soil where other varieties fail to ripen. Highly recommended for the North where the seasons are short and cool. It can be made to produce fine Onions in about 30 days.

Pkt. (over 500 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 30c; 1 lb., $1.00; 2 lb., $3.50.

Giant Australian Brown

Giant Australian Brown Onion. This is a sure cropper, early, and a long keeper variety. It matures earlier than Globe Danvers but somewhat resembles it in size and shape, yielding a larger crop in both weight and bulk. The skin is a reddish brown in color, and the flesh is white, excessively solid, crisp, and of mild, sweet flavor. I believe it is the longest keeping Onion, bulbs having been kept in fine condition for over a year after they were harvested. It is a splendid Onion for the North and matures in 85 to 110 days.

Pkt. (over 500 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 30c; 1 lb., $1.00; 2 lb., $3.50.

Prize Taker (American Grown) I do not think there is an Onion that can surpass my American Grown Prize Taker in size, beauty, and productiveness. The bulbs grow about three times as large as the Globe Danvers under ordinary cultivation, and under special conditions bulbs have been raised weighing 4 to 5 lbs. each. The plants grow strong and it requires 3 to 4 weeks longer season than the Danvers. Skin is thin, of a bright straw color, flesh pure white, rich, very mild and sweet in flavor. Prize Taker is a very satisfactory Onion to grow from seed planted early in the row, but in dry season and light soil the bulbs while ripening evenly and quite early will not attain such large size as in more favorable locations and conditions. Will mature in from 110 to 140 days.

Pkt. (over 500 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 30c; 1 lb., $1.00; 2 lb., $3.50.

Leaves: How to Grow Onions from Seed—free with order if asked for.

Mills Selected Yellow Globe Danvers Onion

This is a magnificent Onion—the standard variety for Winter use. It produces bulbs averaging about 2 inches in diameter and nearly globe-shaped. The skin is a beautiful pale yellow and the flesh is pure white, crisp, and mild in flavor. The plants have very slender necks and consequently the bulbs keep well over Winter. It ripens up uniformly and is an immense crop; over 500 bushels per acre have been raised. On account of its attractive shape and color, and its excellent keeping qualities, it always brings a good price in the market. Matures in about 110 days.

Pkt. (over 500 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 30c; 1 lb., $1.00; 2 lb., $3.50.
**Mammoth Silver King**

This mammoth white variety is one of the largest in cultivation. The large bulbs are of attractive form, flattened but quite thick through, and under good cultivation will average from 5 to 7 inches in diameter. The skin is a beautiful silver white, flesh snow white, tender, and of a mild, sweet flavor. Mammoth specimens can be grown from seed sown, early in spring, maturing in 90 to 110 days.

Pkt. (about 300 seeds), 8¢; 3 pks., 24¢; 6 pks., 36¢.

---

**Mills White Pickling Onions**

This is the earliest ripening onion in cultivation, and the best of all for small pickles. The onions are a pure pearly white in color, averaging from 1 to 1½ inches in diameter of very mild and delicate flavor. Fine for bunching for early market, gardeners planting largely of this variety which commands high prices in all markets. Ready to use in 70 to 80 days.

Pkt. (500 to 600 seeds), 8¢; 3 pks., 24¢; 6 pks., 36¢.

---

**Early White Welsh**

The best kind for green onions for it does not form a bulb. It is very hardy, used only for bunching or for early green onions. The shoots attain marketable size very rapidly, and sell at top prices before green onions grown from sets are on the market. It is pearly white in appearance and mild in flavor. Seed may be sown in early spring in rows 12 to 15 inches apart for summer use, or in late summer or fall months for early spring; onions being very hardy require no winter mulching.

Pkt. (about 300 seeds), 10¢; 3 pks., 25¢; 6 pks., 40¢.

---

**Parsley**

Used extensively for garnishing. Sow seed early in the spring in rows about 1 foot apart and thin to 6 inches in the row. In a good plan to soak the seed a few hours in lukewarm water before sowing. For winter use set a few plants in cold frames in autumn where it may be had in winter.

---

**Spinach**

Requires very rich ground, the richer the better. Sow in drills 12 to 15 inches apart and begin thinning out the plants when the leaves are 2 to 3 inches wide. All should be cut before hot weather or it will be tough and stringy. For succession sow every two weeks until July, and for very early spring use sow 10 to 12 weeks before planting. Protect the plants with a light covering. Its leaves are broad, dark green in color and a great favorite. Ready to eat in about 60 days.

Pkt. (250 to 500 seeds), 2¢; 3 pks., 5¢; 6 pks., 10¢.

---

**Chives**

A hardy onion-like plant highly prized by some for use as a salad. The green stems have a pleasant onion flavor for sauce.

Pkt. (about 50 seeds), 6¢; 3 pks., 18¢; 6 pks., 25¢.

---

**Giant Thick-Leafed Spinach**

This is an entirely distinct species, and ideal for the home garden. It resists heat and makes a strong growth producing its tender branches throughout the hottest 3 summer months when ordinary Spinach is not to be had. Fitz to cut in about 60 days.

Pkt. (about 100 large seeds), 5¢; 3 pks., 15¢; 6 pks., 25¢.
Pumpkins

Golden Sugar Pie This is one of the best for pie. Fruits are of small size, averaging about 18 inches in diameter. Skin of deep orange yellow, flesh fine grained, sweet, and of delicious flavor. A most prolific yielder, excellent keeper and cannot be excelled as a table pumpkin. Matures in about 65 days.

Pkt. (50 to 75 seeds), 4c; 3 ptkts., 10c; 6 ptkts., 18c; oz., 12c; ¼ lb., 36c; ½ lb., 60c.

Winter Luxury Enormously productive and claimed to be one of the best pie pumpkins in existence on account of its wonderful winter-keeping qualities. It is of medium size, slightly oval in shape, evenly and finely netted and is a yellowish russet color. The flesh is a deep golden color, sweet, and tender. Matures in about 95 days.

Pkt. (50 to 75 seeds), 4c; 3 ptkts., 10c; 6 ptkts., 18c; oz., 12c; ¼ lb., 36c; ½ lb., 60c.

Common Field This is the ordinary yellow Pumpkin used to plant in corn fields for feeding stock. It grows to large size, nearly round and is very productive. A fine sort for market or for family use, and is one of the hardest pumpkins. This Pumpkin often produces very large specimens and is called by some “Big Tom.” My stock is extra selected and I know will give good satisfaction wherever planted. Matures in 90 to 100 days.

Pkt. (50 to 75 seeds), 3c; 3 ptkts., 10c; 6 ptkts., 18c; oz., 12c; ¼ lb., 36c; ½ lb., 60c.

Surprise Mixture This is a special mixture containing a wonderful collection of the different kinds of pumpkins. We do not offer separately. You can grow a great lot of pumpkins in all the odd-shaped and mammoth-sized if you plant a little of this seed. The above photograph sent me by a customer shows what was produced from this mixture—pumpkins of every imaginable shape and color. Pumpkins are maturing from 90 to 125 days.

Pkt. (75 to 100 seeds), 5c; 3 ptkts., 12c; 6 ptkts., 20c; oz., 12c; ¼ lb., 30c; ½ lb., $1.00.

Golden Sugar Pie Pumpkin, Mills Giant Pumpkin, Winter Luxury Pumpkin.

White Cushaw or Jonathan This is a popular crook-necked variety with a hard creamy white shell. The fruits grow about 2 feet in length with long, solid, and neck. The flesh is yellow, solid, sweet, and excellent for pie. It can also be used for stock feeding if desired. It often produces pumpkins 12 to 20 lb. in weight. Matures in about 95 days.

Pkt. (50 to 75 seeds), 5c; 3 ptkts., 10c; 6 ptkts., 18c; oz., 12c; ¼ lb., 36c; ½ lb., 60c.

Yellow Sweet Potato Pie Pumpkin This handsome pie-maker is finer as a pie-maker. The flesh is very thick and fine grained, of a beautiful golden yellow color and flavor and texture particularly adapted for making pumpkins. A wonderful winter keeping pumpkin remaining in good condition until spring. Matures in about 90 days.

Pkt. (50 to 75 seeds), 4c; 3 ptkts., 10c; 6 ptkts., 18c; oz., 12c; ¼ lb., 36c; ½ lb., 60c.

Improved Long Smooth Sugar The roots grow uniformly and are large, of stocky form, heavy at the shoulder, well rounded, and gradually tapering to the base. The flesh is white, of fine texture, free from core and stringiness, fine flavored, cooking tender, rich, and sweet. Enormously productive, maturing in 90 to 85 days, and may be stored in the cellar for winter use or left in the ground all winter and dug when weather permits in spring.

Pkt. (200 to 300 seeds), 6c; 3 ptkts., 10c; 6 ptkts., 18c; oz., 12c; ¼ lb., 36c.

Mills Giant This is a prize winning variety growing to an enormous size. But few have any idea of the giant size these pumpkins attain. The flesh is bright yellow, fine grained and of good quality. Notwithstanding the large size it is excellent for pies. I have raised specimens weighing nearly 200 lbs. and it is nothing uncommon for my customers to report specimens weighing 100 lbs. or more. This is an excellent pumpkin to plant for show purposes on account of attaining such enormous weight and will create great interest wherever grown. These large pumpkins contain but few seeds as the price is necessarily high. Matures in 110 to 120 days.

Pkt. (15 to 20 large seeds), 5c; 3 ptkts., 12c; 6 ptkts., 20c; oz., 30c.

Parsnip Seed is slow to germinate and should be sown as early as possible in spring in well prepared soil. The roots are improved by frost and should not be dug until late in fall, and stored in the cellar, but many prefer to leave in the ground until spring to be dug as required.

Parsnip

Golden Sugar Pie Pumpkin, Winter Luxury Pumpkin.

Yellow Sweet Potato Pie Pumpkin.
PEAS

Mills First of All. This is one of the very best extra early smooth Peas. The vines are quite slender, of very quick growth, and average 20 to 30 inches in height. The pods are well filled with smooth, round, creamy white peas that ripen so evenly as not to require more than two pickings, and sometimes if the season is very favorable one picking will take the entire crop. Quite a favorite for very early spring planting.

Pkt. (150 to 200 seeds), 6c; 3 pkts., 15c; ½ lb., 24c; lb., 45c; 3 lbs., $1.20 postpaid.

American Wonder. This is the earliest wrinkled Pea. The vines grow 12 to 18 inches high and are very prolific in producing pods well filled with large luscious peas. Peas planted in May will mature in 33 to 40 days and on account of requiring no brush or other support is well adapted for the home garden.

Pkt. (about 150 seeds), 6c; 3 pkts., 15c; ½ lb., 24c; lb., 45c; 3 lbs., $1.20 postpaid.

Gradus or Prosperity. This Pea is claimed by many the best early wrinkled pea in existence. The vines grow heavy stems and grow about 2½ to 3 feet high, bearing large pods from 4 to 5½ inches in length, well filled with peas of large size, of the finest flavor. Ready for use in about 55 days.

Pkt. (100 to 150 seeds), 6c; 3 pkts., 15c; ½ lb., 24c; lb., 45c; 3 lbs., $1.20 postpaid.

Champion of England. The vines grow strong, 4 to 5½ feet tall; is one of the oldest and best wrinkled peas in cultivation. The fine large pods are filled with large peas of delicious flavor. Cannot be over praised as a standard late sort. It matures in 73 to 80 days.

Pkt. (about 200 seeds), 6c; 3 pkts., 15c; ½ lb., 24c; lb., 45c; 3 lbs., $1.20 postpaid.

Telephone. The vines grow on an average from 3½ to 4½ feet tall, and a profitable wrinkled main crop sort. Pods are of good size, well filled with from 6 to 8 large peas of rich, sweet flavor. It is a sure cropper and the quality of the Telephone is hard to beat. In the Northern States a late pea like the Telephone planted about July 1st will usually bear until a hard frost. Fit for picking in about 75 days.

Pkt. (about 150 seeds), 6c; 3 pkts., 15c; ½ lb., 24c; lb., 45c; 3 lbs., $1.20 postpaid.

American Wonder Pea.

Gradus or Prosperity Pea.

Champion of England Pea.

Telephone Pea.

Thomas Laxton Pea.
Peas

Unsurpassed Everbearing

(Second Early)
A grand wrinkled Pea growing about 2 feet high. It has a remarkable branching habit and is a continuous long-season bearer, especially adapted to summer and autumn cropping. The vines produce well-filled pods, the peas being very large, tender and of superior quality. It will do well without bushing and will produce pods for picking in 60 to 65 days. Pkt. (100 to 150 seeds), 4c; 3 pkts., 12c; 1 lb., 25c; 3 lbs., $1.25 postpaid.

**Mills Enormous**

Giant of the Pea Family

The Largest Potted and the Heaviest Crapper

There are few varieties of seed in this seed book that are better named than this Giant Pea, when you consider that it will produce pods containing the extraordinary length of 7 inches and upwards closely packed with from 10 to 12 dark green peas of fine flavor. The plant is of branching habit growing about 2 feet in height with dark green foliage. It is of very vigorous and robust constitution which enables it to withstand drought and mildew. The pods are produced in great profusion, mostly in clusters, making an attractive appearance. Every customer will be delighted with this giant pea. A few plants growing in your garden will produce a great quantity of pods and peas and will be profitable as well as interesting. For the best results give the vines a little support. Matures pods in 70 to 90 days.

Pkt. (100 to 150 seeds), 4c; 3 pkts., 12c; 1/2 lb., 25c; 1 lb., 45c; 3 lbs., $1.25 postpaid.

**Peppers**

**Chinese Giant**

The largest, mild, red Pepper. Plants grow stockily about 2 feet in height, thickly set with enormous fruits 4 to 5 inches in diameter of a brilliant scarlet. Flesh thick and meaty. Ripen in about 120 days. Pkt. (50 to 100 seeds), 5c; 3 pkts., 12c.

**Tomato Pepper**

Upright growth, productive, so mild they may be eaten like an apple. Fine for canning or as a salad. Maturing in about 110 days. Pkt. (50 to 100 seeds), 5c; 3 pkts., 12c.

**Early Ruby King**

Plant grows about 2 feet high and produces a fine crop of large scarlet fruits of sweet, mild flavor. 4 to 6 inches long by 3 to 4 inches thick. Fruit ripens in about 120 days. Pkt. (50 to 100 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 90c.

**Improved Ruby King**

Plant grows about 2 feet high and produces a fine crop of large scarlet fruits of sweet, mild flavor. 4 to 6 inches long by 3 to 4 inches thick. Fruit ripens in about 120 days. Pkt. (50 to 100 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 90c.

**Mammoth Golden Queen**

Sweetest and largest yellow Matue Pepper, specimens reaching 6 to 8 inches in length and 4 to 5 inches in diameter, maturing in about 120 days, flavor mild and pleasant. Pkt. (50 to 100 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 90c.

**Mexican Bouquet**

Plant grows compact, producing an abundance of small coral red Peppers crowded in a bunch at the top of the branches, distinct and beautiful. Matures in about 135 days. Pkt. (50 to 100 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 90c.

**Pimiento**

The sweetest Pepper grown. Very productive; produces medium sized bright red peppers maturing in about 135 days. Pkt. (about 100 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c.

**Pimiento Pepper**

Mature about 2 1/2 inches. Pkt. (about 50 seeds), 5c; 3 pkts., 12c.

**Podded Peppers**

A grand assortment of Podded Peppers whereby anyone can have peppers in 100 to 110 days. Pkt. (25 to 100 seeds), 4c; 2 pkts., 10c; 6 pkts., 18c; oz., 25c.
Squash

Improved Hubbard

This is the well known winter squash, planted in more gardens than any other sort. Vines of strong running growth, fruits large, olive-shaped with dark green skin and very rich deep golden yellow or orange-colored flesh, and is very fine grained, solid, dry, and sweet. Ready for market in 60 to 70 days. Keeps well.

Pkt. (40 to 60 seeds), 5c; 3 pks., 12c; 6 pks., 20c; oz., 15c; lb., 50c.

Delicious An early winter variety of medium size, preferred by some to the Hubbard, Color dark green, shell moderately hard but very thin. Flesh thick, fine grained and bright yellow. Fruits are a little smaller than the Hubbard, weighing from 5 to 10 lbs. each. An ideal home garden squash and is much used for pies. Fine flavor. Ready for table in 60 to 75 days.

Pkt. (40 to 60 seeds), 5c; 3 pks., 12c; 6 pks., 20c; oz., 15c; lb., 50c.

Mills Giant A very large variety and under special cultivation it attains a great weight. and is very attractive in appearance. The outer skin of this giant Squash is a rich orange-yellow. Flesh yellow, very thick, and the quality is good. A prolific variety and a good Winter keeper and will mature in 80 to 100 days.

Pkt. (30 to 40 seeds), 5c; 3 pks., 12c; 6 pks., 20c; oz., 15c.

Golden Summer Crookneck The popular yellow Crookneck Summer Squash, quite heavily warked shell and has deep golden yellow flesh, dry and of agreeable flavor. Of dwarf bushy habit, productive, maturing in 60 days.

Pkt. (50 to 75 seeds), 4c; 3 pks., 10c; 6 pks., 15c; oz., 25c.

Mammoth White Bush

Favorite Summer Squash, earlier than any other Summer variety. The illustration shows the shape. The skin is white and firm is tender when ready for use. It is dwarf of bushy habit, quite uniform in shape and size, hardy, and very productive. Ready for use in about 60 days.

Pkt. (50 to 75 seeds), 4c; 3 pks., 10c; 6 pks., 15c; oz., 25c.

MIXED SQUASH Supplies the table the entire season. This is a wonderful mixture of all known kinds. In it will be found early and late, large, medium, and small varieties, whereby anyone can have a great supply of delicious squashes throughout the entire season. Many being good Winter keepers. Mature from 60 to 100 days.

Pkt. (about 100 seeds), 5c; 3 pks., 12c; 6 pks., 20c; oz., 35c.

Herb Seed

Those marked * are perennial and when once obtained in the garden may be preserved for years.

Anise. Seeds aromatic.

Balm. Has medicinal qualities.

Coriander. Seeds aromatic.

Caraway. Seeds aromatic.

Dill. Seeds aromatic.

Horseradish. Medicinal qualities.

Lavender. Very fragrant.

Rivermary. Very fragrant.

Summer Savory. For seasoning.

Sweet Fennel. Seeds aromatic.

Sage. Culinary herb.

Thyme. For seasoning.

Price, pkt. (about 100 seeds), 5c; 3 pks., 10c; 6 pks., 15c.
Tomatoes

Leaflet "How to Grow Tomatoes" free, with order if asked for.

The Burbank

This New Early Tomato, THE BURBANK, is one of LUTHER BURBANK'S latest creations. This is what he says of it: "It is by far the earliest and smoothest, and is such a compact grower that it may be planted from one-third to one-fourth closer each way, thus making it also the most productive Tomato in the world. The fruit is bright crimson red, thick, solid, heavy, medium to large in size, of superior quality and is borne continuously. THE BURBANK has one other unique and most remarkable quality which will be appreciated by those who like fresh sliced tomatoes for the table, that the skin peels more freely than any other from the rich, firm deck." This photograph shows a plant trained on a low trellis and gives an idea of its enormous productive powers.

Pkt. (100 to 150 seeds), 5c; 3 pks., 15c; 6 pks., 25c; 1 oz., 30c.

Quick Crop

I introduced the Early Tomato several years ago, and I have nothing but praise for it from every section where it has been grown. It is a strong grower and a great producer. It is handsome in size, of a beautiful dark red color, very smooth, thick from stem to blossom end. They are free from cracks and ridges, and very solid and heavy. The fruits are produced in large clusters from early summer until killed by frost. The vines are very hardy, and it is desirable for early planting and it deserves a place in every garden. Ready to pick in about 80 days.

Pkt. (about 300 seeds), 4c; 3 pks., 10c; 6 pks., 15c; 1/2 oz., 25c; 1 oz., 40c.

Bonny Best

A splendid large, second early, Red Tomato. A vigorous grower and a heavy cropper. It sets its fruit in clusters of 5 or more, and is ready to pick in about 80 days. The shape is perfect and remarkably uniform in size. A great variety for forcing under glass.

Pkt. (about 300 seeds), 4c; 3 pks., 10c; 6 pks., 15c; 1/2 oz., 30c.

Chalk's Early Jewel

This is a popular red Tomato, and within a week or 10 days as early as any of the "Earliana," and even a heavier cropper. The fruits are of a larger size and of a sweeter flavor, and the plants a stronger grower. The large handsome fruits are very solid, deep through, ripening up to the stem without any cracks or green core. Skin thin, but strong enough to make it a good slicer and a grand variety for the home garden. Ready to pick in about 90 days.

Pkt. (about 300 seeds), 4c; 3 pks., 10c; 6 pks., 15c; oz., 30c.

Mills Early July

I have made quite a specialty of this early Tomato for several years. Its great value lies not only in the time of ripening its first fruits but that such a quantity of fruit can be picked from a single plant, while many other varieties ripen only a few fruits at a time. The fruit is of good size, bright red in color, and of fine quality. Ready in about 90 days.

Pkt. (about 300 seeds), 4c; 3 pks., 10c; 6 pks., 15c; oz., 30c.

Read Page 2

June Pink

This is a pink Tomato resembling "Earliana" in every way except the color. The vine is compact and branches freely producing handsome, good sized, deep pink fruit hanging in clusters. Fruit begins to ripen in about 80 days and bears for a long season.

Pkt. (about 300 seeds), 4c; 3 pks., 10c; 6 pks., 15c; oz., 30c.

Improved Extra Early Tree Tomato

This Dwarf Tree Tomato is very popular on account of its size, vigorous, upright growth, and fruit well above the ground. The color of the fruit is a purplish pink and it is always round and smooth, being a valuable sort for home garden. It is a very attractive variety, both plants and fruit. Ripens in about 90 days.

Pkt. (about 300 seeds), 4c; 3 pks., 10c; 6 pks., 15c; oz., 30c.

Golden Queen

The best yellow Tomato. The handsome fruits are of good size and very smooth, solid, and meaty, and of mild flavor. On account of being a bright yellow color it makes an attractive dish when served together with red fruited Tomatoes. Ripens in mid-July. Very suitable for planting in southern parts of the country.

Pkt. (about 300 seeds), 4c; 3 pks., 10c; 6 pks., 15c; oz., 30c.
Matchless Tomato

This is one of the best, second-bearing, large-fruited, smooth, main crop Tomatoes in cultivation. It is a strong, vigorous grower, making thrifty vines which produce an abundance of tomatoes throughout the season. Many market gardeners depend on Matchless for main crop. The fruit is large, solid, and meaty, bright cardinal red in color, of excellent flavor, containing but few seeds, and is a splendid keeper. In many sections the smooth vines are inclined to overbear, and it is a standard sort for market gardeners, canners, and the home garden. Ready for market in 110 to 120 days.

Pkt. (about 300 seeds), 10c; 6 pks., 15c; oz., 25c; lb., 75c.

Pear Tomato

This is a pear-shaped variety used for making Tomato Figs or preserving. The fruit is bright red in color, small and pear-shaped, about the size of a plum. The flesh is tender, of good flavor and ripens in about 80 days. Pkt. (about 100 seeds), 4c; 3 pks., 10c; 6 pks., 15c.

Improved Golden Husk Tomato

This is a very desirable Tomato, producing fruit in great quantities, which can be used for preserving, pies, etc. The fruit is a handsome yellow color about 1/2 inch in diameter and will keep until midwinter. The flavor suggests the strawberry and it is of easy culture doing well most anywhere. The fruit is produced in husks and the plant should be cared for as other Tomatoes. Ready to use in about 120 days.

Pkt. (about 200 seeds), 4c; 3 pks., 10c; 6 pks., 15c.

Ponderosa

This variety is very popular in many sections of the country. The vines are of strong growth and produce large clusters of beautiful Tomatoes. Fruit is deep purple in color, of immense size, very meaty and solid with small seed cells, and produced continuously until frost. A good Tomato for the home garden beginning to ripen in 110 to 120 days.

Pkt. (about 200 seeds), 4c; 3 pks., 10c; 6 pks., 15c;

Mammoth Fruited Ground Cherry

This Ground Cherry will grow in almost any soil, and is just as easily raised as a Tomato. It is a very prolific bearer, fruit a handsome purple in color when ripe, and oh what luscious fruit! For sauce or pies they are excellent and they also make good preserves, and dried in the sun are pronounced by many equal to raisins for cakes and puddings. The plants grow about 2 1/2 feet high and should be planted and cared for like Tomatoes. Ready to use in about 120 days. Cooking recipes on every packet.

Pkt. (100 to 150 seeds), 5c; 3 pks., 12c; 6 pks., 20c.

ALL KINDS OF TOMATOES IN MIXTURE

This mixture is made up of all the different varieties of Tomatoes I offer as well as several others not in many lists. From the very earliest to the latest sorts of the different colors, shapes, and sizes will be produced. A very interesting collection and should prove a real curiosities, maturing ripe fruits from about 80 to 130 days.

Pkt. (about 300 seeds), 4c; 3 pks., 10c; 6 pks., 15c.

Orange Sunberry

This new Sunberry is claimed to be an improvement on anything in the Sunberry class, and was only recently introduced by Luther Burbank, from whom my supply of seed comes. It resembles the black Sunberry, though even more productive and the berries grow in larger clusters, but above all, the berries ripen nearly a month earlier. The color of the berries is a beautiful orange and the productivity of the fruit will appeal to everyone. Give it a trial this year and report how you like it.

Pkt. (50 seeds), 6c; 3 pks., 15c; 6 pks., 25c.

Albino or White Tomato

At last we have a White Tomato. This new white variety is a beauty, contains no acid and so will make tomatoes agreeable to thousands of people who have heretofore avoided them on account of the acidity. The fruit is ivory-white in color and the flesh is almost paper-thin, the size is firm and solid, having few seeds, making the seed rather high in price. The plants grow strong and robust and bear fruits for a long time in clusters of 3 to 5. This is a real novelty and the best white tomato ever offered. Ripens early.

Pkt. (about 50 seeds), 6c; 3 pks., 15c; 6 pks., 25c.

Red Grape Tomato

The fruit is about the size of a large grape or cherry and is produced in clusters of 10 to 15 or more. They are bright red in color and perfectly smooth, whole clusters ripening at one time. These small tomatoes are very useful for serving whole in salads, also for pickles and preserves. The vines grow very vigorously and produce an immense quantity of fruit throughout the season. Fine for the home garden. Pkt. (about 100 seeds), 4c; 3 pks., 10c; 6 pks., 15c.

Garden Berry

This is a very attractive fruit, easily raised from seed in three or four months from the time seed is planted. Plants grow strong and erect, 2 to 3 feet high, producing fruit in clusters about one-half inch in diameter of a shining black color. It makes good pies, preserves and jams, but should not be picked until thoroughly ripe. The above photograph was sent me by a customer, who writes:

"We picked ripe berries from August until late in October. The bushes were in full bloom and loaded with green berries when killed by frost."

Another customer writes: "My Garden Berry was especially fine, each plant averaged 3 quarts of fruit." While another customer writes: "Had good success with Garden Berry. Every plant was loaded with berries, which made lovely preserves when ripe."

You should not fail to try garden berry. Pkt. (50 seeds), 6c; 3 pks., 15c; 6 pks., 25c.
**Turnips**

Sow a good supply. Ready to use in 50 to 75 days from seed.

**Early Snowball or Six Weeks**
A pure white variety, bulbous having a smooth, white skin and are nearly round. It is very tender and sweet. One of the best Turnips to sow in the early Spring. Matures in about 60 days.

Pkt. (about 1000 seeds), 10c; 6 pkts., 50c; oz., 8c; 1/4 lb., 25c.

**Early Purple Top Strap-Leaf**

Roots are quite flat, flesh is very fine grained, sweet and tender. It is a quick grower; planted largely for table use. Will form good-sized roots in about 55 days.

Pkt. (about 2000 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; oz., 8c; 1/4 lb., 25c.

**Turnip Mixture**
A Great Mixture of all Turnips.

I have made up a great mixture of garden Turnips and Rutabagas including both white and yellow fleshed varieties. It is a wonderful collection and will mature roots all the way from 45 to 100 days. You should try it.

Pkt. (about 2000 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; oz., 8c; 1/4 lb., 25c.

**White Egg**

Popular early Turnip, growing to a good size. The ball roots are egg-shaped, smooth, and pure white. The flesh is fine grained and of mild, sweet flavor. Does well for the early Spring sowings but is superior for Fall use. Ready for use in about 55 days.

Pkt. (about 2000 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; oz., 8c; 1/4 lb., 25c.

**Heavy Cropping Rutabaga.**

**Rutabagas**

Heavy Cropping One of the most profitable of all yellow Rutabagas. It is the best shaped, heaviest, hardest, and most productive. The flesh is a beautiful yellow color, fine grained and sweet. Excellent for table use or for stock feeding. Ready in about 80 days.

Pkt. (about 2000 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; oz., 8c; 1/4 lb., 25c.

**Improved American Purple-Top**

A very promising, large, smooth, globe-shaped roots with purple top and flesh, being firm, crisp and very sweet. Matures in about 90 days.

Pkt. (about 2000 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; oz., 8c; 1/4 lb., 25c.

**Giant White Sweet**

An extra good white Rutabaga, increasing to a large size, and is most excellent for table use or for stock. The flesh is white, firm, rich, crisp, and sweet. Just the Rutabaga for a big yield. Matures in 90 days.

Pkt. (about 2000 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; oz., 8c; 1/4 lb., 25c.

**Hybridized Potato Seed**

Potato Seed Balls. One-half natural size. It is from these that ALL valuable new varieties of Potatoes are produced.

Hybridized Potato Seed from the Seed Ball is the wonder of the Vegetable World. There is nothing like them. No product of the garden so interesting, none may prove of such value. All valuable new Potatoes are produced from such seeds.

The seeds I offer will produce Seedlings of all colors, shapes, sizes and qualities, 60% to 250 Potatoes in a hill. There will be white, yellow, pink, red, blue, purple, and black potatoes.

The seed seems to go mad and try to produce anything and everything in the potato line. Very strange and wondrous "breaks" often appear. Millions of people never saw a Potato Seed Ball. Thousands have tried to get the seed now and is the opportunity.

From the New Experiment Station.

"Your Potato Seed gave very interesting results. I had thirteen different types—white, purple, pink, etc., 2 to 50 in a hill. Size from half inch to three and a half inches in diameter. Geo. W. Hood Prof. of Horticulture."

Worth Their Weight in Gold.

Mr. C. E. Flint of Washington writes: "Your Potato Seeds are worth their weight in gold. I had a grand assortment. I grew over 20 varieties from one packet. They are the finest I ever saw, and I expect to make a lot of money out of them."

Order some of the seed this year, and you may be able to produce a new potato of great value.

Pkt. (about 100 seeds), 6c; 3 pkts., 15c; 6 pkts., 25c.

**Grand Almond or Chufa**

Have a fine flavor resembling the Guinean Almond. The nuts grow close to the surface on strong plants, and yield great quantities. The meat is smooth white covered with a thin shell oil skin of brown color. If planted in early Spring a big crop of nuts may be expected in the Fall. In the South they are much planted for feedings of hogs and poultry.

Pkt. (over 2000 seeds), 10c; 3 pkts., 15c; 6 pkts., 25c.

**Salsify or Vegetable Oyster**

MAMMOTH SANDWICH ISLAND. This is the best variety grown. It is the largest and most profitable Salsify in cultivation. The roots are of very superior quality, and delicate in flavor. Sow seeds in Spring as the roots require a full season to come to maturity, and as the weather may be left in the ground during Winter or dug and stored in a cool cellar after cutting off the leaves.

Pkt. (about 2000 seeds), 3c; 3 pkts., 10c; 6 pkts., 20c; oz., 15c.

**Rhubarb or Pieplant**

GIANT CRIMSON.
The best Rhubarb, stalks are of medium size, good length, of beautiful crimson color, right in the market. The quality is simply superb. The flavor is so thin and tender when cooked makes a beautiful crimson sauce. Rhubarb is the finest vegetable from the ground in Spring and plants may be raised easily from seed which should be sown early in Spring. When well started transplant in the Fall or the following Spring where they are to grow, about 3 feet apart. Do not offer roots.

Pkt. (about 150 seeds), 6c; 3 pkts., 15c; 6 pkts., 25c.
Mills Gigantic Flowering Asters.

of Asters will be astonished at the wide range of colors in this mixture. Pkt., (200 seeds), 10c; 3 pkts., 25c; 1 oz., 50c; oz., $1.00, postpaid.

MRS. R. L. LLOYD, Minneapolis, Minn., writes: The small order of flower seed I purchased from you earlier in the season have proved to be worth their weight in gold, and I now have a wonderful flower garden, all blooming. I must say, too, you are those few in your prices and only wish I could walk into your nursery and select more.

Early in Spring, give support, and water freely. All Colors Mixed. Pkt. (100 seeds), 10c; 3 pkts., 20c; oz., 30c.

If you want separate colors in Sweet Peas see my offer of 14 colors offered on inside of back cover. Many of my customers prefer separate colors.

These are favorites in American gardens because they are one of the most valuable and decorative flowers which can easily be grown from seed, thriving in any soil, and blooming freely. The tall sorts are most desirable for cut flowers while the dwarf make the best plants for beds or edging.

LARGE FLOWERING DWARF
Mixed Colors, pkt. (300 seeds), 4c; 3 pkts., 12c; 6 pkts., 20c.

LARGE FLOWERING TALL. Mixed Colors, pkt. (300 seeds), 4c; 3 pkts., 12c; 6 pkts., 20c.

GIANT FLOWERING GORGEOUS SWEET PEAS should be grown by every one of my customers. It is a wonderful mixture producing giant flowers in all possible color variations to be found in Sweet Peas. They will grow anywhere you can make common garden plots, and begin to bloom early and continue for months. To secure beautiful blossoms mature or fertilize liberally. Plant a Field of Gigantic Flowering Asters.

Antirrhinum (Snapdragons)
Grass Pinks Sometimes called "June Pinks," are low growing, hardy Pinks. Bloom early, unequalled for the border of beds, walks or drives. Do well in any good garden soil with full sun and in an oven shelf.

SINGLE AND DOUBLE VARIETIES. Mixed. Pkt. (100 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c.

Early Flowering Marguerite Carnation Th b

Flowering Marguerite Carnation is a grand strain, producing flowers in about 4 months from seed. They are quite hardy, flowering the first season until late in the Fall. Plants grow strong producing a great abundance of fragrant double flowers in a variety of colors such as pink, white, scarlet, purple, red, fuschia, variegated, striped etc. Seeds sown during the Summer will produce plants which can be potted in the Fall. Plants will grow and bloom throughout the Winter. Mixed Colors, pkt. (100 seeds), 6c; 3 pkts., 15c; 6 pkts., 25c.

Larkspur

GIANT. This is a well known annual of great beauty producing large double flowers of various colors, shades, and markings which are borne on long spikes like immense Hyacinths. Easily grown.

Mixed Colors, pkt. (300 seeds) 10c; 3 pkts., 15c; 5 pkts., 6c.

Hollyhocks Annual Everblooming. These are as easily grown from seed as any annual and commence blooming in about 12 weeks, and continue throughout the season. This is a wonderful free-flowering sort and produces large flowers in many beautiful colors. I offer a special collection in mixed colors both single and double. Pkt. (100 seeds), 3c; 3 pkts., 12c; 6 pkts., 20c.

Digitalis (Foxglove). Produces long spikes of richly colored flowers, very ornamental, 2-3 feet long.

Mixed Colors, pkt. (300 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c.

Ricinus - Castor Oil Bean

ZANZIBARENSIS. Grown largely for its picturesque foliage, enormous in size. The plants attain a height of 10 to 15 feet, leaves 2 to 4 feet across. Pkt. (15 large seeds), 3c; 3 pkts., 12c; 6 pkts., 20c.

Early Garden Pinks

These new Pinks bloom the first Summer from Spring sown seed. They flower in great profusion giving a great array of fine colors from white through different shades of pink, crimson, and variegated. Some are double, others single but all have that rich fragrance so prized in the Garden Pinks. The plants are of dwarf and compact habit often producing 50 to 100 blossoms on a single plant.

Mixed Colors, pkt. (200 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c.
**Forget-Me-Not**

*Mysotis*
These charming little favorites succeed best in damp shady places and will thrive in almost the soil, and produce blue, white, rose, and other shades.

**ALPESTRIS MIXED**
Pkt. (100 seeds), 4c; 3 pks., 10c; 6 pks., 18c.

W. C. Wood, Downington, Pa., writes:
"Your holographic were the wonder of the Greenfield people! I had one stalk 6 feet high with 250 blooms!"

---

**Bellis - Double Daisy**

Blossoms very early in Spring, fine for beds or borders. Do well in cool shady places.

**Mixed Colors**, pkt. (300 seeds), 4c; 3 pks., 10c; 6 pks., 18c.

Mrs. J. A. Moore, Milton, Me., writes, "I ordered my flower seeds of your best Spring and I have some of the most beautiful Poppies and Asters there are for miles around.

---

**Cosmos**

**Giant Early Flowering**
This new strain blooms very early, blooms profusely, flowers being much larger than any other early flowering Cosmos.

**Mixed Colors**, pkt. (150 seeds), 4c; 3 pks., 10c; 6 pks., 18c.

**Late Giant Flowering**
Plants grow 3 to 5 feet high, blooms profusely in late Summer and Autumn.

**Mixed Colors**, pkt. (150 seeds), 4c; 3 pks., 10c; 6 pks., 18c.

---

**Campanula**

(see Canterbury Bells). Finest Double. Grow like pyramids nearly 2 feet high and covered with large bell-shaped flowers.

**Mixed Colors**, pkt. (100 seeds), 4c; 3 pks., 10c; 6 pks., 18c.

---

**Candytuft**

**GIANT HYACINTH-FLOWERED**
One of the most useful hardy annuals. Most desirable for cut flower purposes on account of the immense white flower heads on upright stalks as shown by the illustration.

**Pkt. (300 seeds)**, 4c; 3 pks., 10c; 6 pks., 18c.

**Mixed Colors**
This includes many varieties and colors.

**Pkt. (300 seeds)**, 4c; 3 pks., 10c; 6 pks., 18c.

---

**Calliopsis**

**Calliopsis**

Are hardy annuals of quick growth, producing a profusion of bright-colored flowers all Summer if planted early in Spring. **Special Mixed**.

**Pkt. (300 seeds)**, 4c; 3 pks., 10c; 6 pks., 18c.

---

**Alyssum**

**Little Gem**
(Carpet of Snow). Very dwarf, each plant covering a circle of about 5 or 6 inches, solid mass of white all Summer. Fine for edging.

**Pkt. (200 seeds)**, 4c; 3 pks., 10c; 6 pks., 18c.

---

**Colesus**

These showy plants are grown for their brilliance of foliage. Start seed early indoors, set out young plants after frost.

**Mixed Colors**, pkt. (100 seeds), 4c; 3 pks., 10c; 6 pks., 18c.

---

**Fountain Plant**

**Amaranthus**

Salicifolius
Hardy annual, 4 feet tall, long narrow leaves drop and curl and by mid-summer these leaves show brilliant colors, looking like a little colored fountain, hence its name. **Pkt. (100 seeds)**, 4c; 3 pks., 10c; 6 pks., 18c.

---

**Centaura or Cornflower IMPERIALS**
The plants grow about 3 feet high with numerous large flowers borne on long stems, and produce a great mass of bloom all Summer. (See Illustration).

**Mixed**, pkt. (150 seeds), 4c; 3 pks., 10c; 6 pks., 18c.

---

**Chinese Wool Flower**

*(Celosia Cristata)*
Plants grow from 2 to 3 feet high, the blooms starting early with a central head, branching freely:

Each shoot carrying beautiful ball-shaped flower-heads of a purplish crimson color, somewhat resembling a ball of wool.

**Pkt. (100 seeds)**, 5c; 3 pks., 12c; 6 pks., 20c.

---

**Celosia or Cockcomb**

All Varieties Mixed. This is a wonderful collection of Celosia made up from all the different varieties including the plum or feathered sorts.

**Pkt. (200 seeds)**, 4c; 3 pks., 10c; 6 pks., 18c.
**Phlox (Flame Flower)**

The annual Phlox surpasses almost everything else in dazzling brilliance and is of the easiest culture. They will thrive on any soil if given a sunny location and if seed is sown in early spring they will begin to bloom early in summer and will continue until severe frost in the fall. When in bloom, the coloring is varied even on the same plant and is a brilliant beyond description.

**LARGE BLOOD RED.** The darkest colored. Pkt. (100 seeds), 5c; 3 pkts., 15c; 6 pkts., 25c.

**PRIMROSE.** Large soft primrose yellow. Pkt. (100 seeds), 5c; 3 pkts., 15c; 6 pkts., 25c.

**ALBA.** Large pure white. Pkt. (100 seeds), 5c; 3 pkts., 15c; 6 pkts., 25c.

**MILLS GORGEOUS PHLOX.** This is made up from all the different varieties and colors to be found among Phlox. It will give a most varied assortment of brilliant colors throughout the entire season. Early in Spring sow a bed of this seed en masse and you will have a flower bed of porcezose colors beyond description.

Mixed Colors, pkt. (150 seeds), 5c; 3 pkts., 15c; 6 pkts., 25c.

**Starred and Fringed Phlox.** This type is entirely different from the ordinary Phlox. The flowers are either starred or fantastically fringed and in many bright shades of color.

Mixed Colors, pkt. (150 seeds), 5c; 3 pkts., 15c; 6 pkts., 25c.

---

**Dwarf Phlox**

The plants average only 5 or 6 inches high and are covered with bright flowers. Valuable for low beds, edgings, and borders.

Mixed Colors, pkt., 100 seeds, 5c; 3 pkts., 12c; 6 pkts., 25c.

**Portulaca**

This charming annual has no equal for brilliance and is sometimes called "Sun Plant." It will flourish under almost all conditions, though hot sun and light sandy soil suit it best. Through the driest, hottest sunny it blooms amazedly, carpeting the ground with a mass of foliage, almost hidden by the abundance of flowers. Nothing is prettier for beds and edgings.

ROYAL BEAUTY. All colors, single and double mixed. Pkt. (500 seeds), 5c; 3 pkts., 12c; 6 pkts., 25c.

---

**Mills Gorgeous Poppies**

Poppies should be in every garden for they are so easily grown. Sow them thinly in drills or broadcast early in the Spring where the plants are to stand and barely cover the small seeds from view.

As brilliant and showy as the finest Tulip.

**Tulip or Glaucum**

Intense blood scarlet with jet black center. They bloom very early and continue for a long time. If seed is sown in Fall after September let the young plants endure the Winter and are ready to show their gorgeous blossoms very early in the Spring like Tulips. This is a "double" variety.

Pkt. (1000 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c.

**Flanders Poppy.** The Scarlet Poppy of the Fields of Flanders. A vivid scarlet red. Official flower of the American Legion.

Pkt. (1000 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c.

**Giant Shirley**

One of the most beautiful of all Poppies and produces flowers of enormous size and of the most gorgeous colors. They possess a grace and beauty all their own. Shades of delicate rose, pink, carmine, brilliant crimson, white, scarlet edged white, and many others are blended in this wonderful Poppies. Plants grow about 15 inches high.

**MIXED COLORS.** Both Single and Double.

Pkt. (over 2000 seeds), 5c; 3 pkts., 15c; 6 pkts., 25c.

**Double Peony-Flowered**

Plants attain a height of about 3 feet and produce double balled flowers of gigantic size and in the most brilliant colors.

**Brilliant Mixed Poppies**

This is the greatest mixture of Poppies I have ever sent out. There are over 20 named varieties included in the mixture and are to make a wonderful display for a long time. Flowers are immense both in size and color, some are single, double, and semi-double, and every color imaginable will be found in this bed of these gorgeous Poppies.

Pkt. (over 2000 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c.

**Perennial Poppies**

These are very attractive on account of the huge handsome flowers measuring 6 to 7 inches across of dazzling brilliant colors, of red, orange, yellow and white.

**ORIENTAL SCARLET.** Pkt. (1000 seeds), 5c; 3 pkts., 12c; 6 pkts., 15c.

**MIXED COLORS.** Pkt. (over 2000 seeds), 10c; 3 pkts., 25c; 6 pkts., 40c.

---

**Mills Giant Pansies**

are perfect marvels in size and beauty. They produce giant flowers in the most wonderful colors and without doubt represent the highest attainable degree of perfection as regards size and coloring of the flowers; they often measure 3 to 4 inches in diameter, of clear tones of color with wonderful tints and variations such as white with dark center, lavender, dark and light blue, violet, blue-bronze, royal purple, rose, red with silver rim, mahogany, yellow, wine colored, red and gold, lavender and gold, striped, margined, pure white, black, etc.

**MIXED COLORS.** Pkt. (1000 seeds), 15c; 3 pkts., 40c.

See inside front cover for 10 separate colors. A most wonderful collection of giant Pansies. 10 colors—10 packets, 15c.
Godeia
A charming annual growing about a foot high, flowering all Summer, producing many shades and colors. Mixed Colors, pkt. (150 seeds), 4c; 3 pts., 12c; 6 pts., 15c.

Stocks
LARGE-FLOWERING TEN WEEKS. This handsome type of Stocks produces plants from 15 to 18 inches high, and is most suitable for borders or for pot culture. Seed for early flowering plants should be started in the house in February or March. Plants prefer a sunny location and produce immense spikes of handsome flowers of various colors having a delightful fragrance.
Mixed Colors, pkt. (150 seeds), 5c; 3 pts., 12c; 6 pts., 20c.

Mills Giant Nasturtiums
For Summer display in large or small beds nothing can surpass Nasturtiums. They are of the easiest culture and start to bloom early and keep up a continuous display of bright colored flowers until frost in the Fall. The Dwarf varieties make most beautiful bedding and border plants growing about one foot high. The Tall or Climbing kinds are for covering unsightly places where they can trail up a few feet from the ground.

DWARF BRILLIANT BEAUTIES. The plants make a neatly rounded bush 10 to 12 inches high producing a wonderful display of flowers of enormous size, in all colors to be found in Nasturtiums, the foliage being very attractive.
Mixed colors, pkt. (100 seeds), 5c; 3 pts., 12c; 6 pts., 20c; oz., 15c; lb., 40c.

GIANT CLIMBING. This is the King of all Giant Nasturtiums and is made up in a wonderful mixture of color and varieties in foliage. It is just the variety to plant in an arbor or fence.
Mixed colors, pkt. (100 seeds), 5c; 3 pts., 12c; 6 pts., 20c; oz., 15c; lb., 40c.

EMPRESS OF INDIA. A very choice and rich strain of Dwarf Nasturtiums, the leaves being a rich dark color with great blossoms of deep scarlet color. The plants grow of even height and are particularly good when used for edgings.
Pkt. (30 seeds), 6c; 3 pts., 15c.

Kochia (Summer Cypress)
This is an annual plant of very rapid growth, sometimes called "Burning Bush." Makes plants as shown in the Illustration about 2 feet high. Leaves slender, of light green until Fall, then changing to blood red and crimson. Fine for temporary hedge, border or dividing line.
Pkt. (500 seeds), 4c; 2 pts., 10c; 6 pts., 15c.

Four O'Clock - Marvel of Peru
The flowers have the strange habit of remaining closed until about 4 o'clock in the afternoon, when they all open, becoming a bank of vivid coloring filling the air with a delightful fragrance. Grows about 2 feet high.
Mixed Colors, pkt. (50 seeds), 4c; 3 pts., 12c; 6 pts., 15c.

Christmas Cherry
This is the most showy and interesting plant for garden or house culture. The plant grows about a foot high, with dark green leaves and an abundance of fruit. It is called by some a Jerusalem Cherry, and at first the fruit is green, then turning to the brightest glossy scarlet when ripe. Sow seeds in house early in Spring, transplanting the plants to the garden after danger of frost, and by Fall they will be loaded with cherries, and may be potted and taken into the house, and the fruit will hang on the plant nearly all Winter, which makes a very attractive pot plant, not edible.
Pkt. (50 seeds), 6c; 3 pts., 15c; 6 pts., 20c.

Marigold
A well known annual, flowering from early Summer far into the Frost of Autumn. I offer the Dwarf and Tall varieties.

Orange Calendula
This is a most beautiful and popular annual growing well from seeds in any good garden soil. It blooms freely and continues in bloom from early Summer to late in the Fall. Plant grows 10 to 15 inches high, producing masses of beautiful double flowers of deep orange-yellow color, and it is suitable for pot culture for Winter blooming. Do not fail to include this in your list of flowers.
Pkt. (50 seeds), 6c; 3 pts., 15c; 6 pts., 20c.

Molten Fire
This wonderful novelty is attracting a great deal of attention wherever grown. It is a beautiful plant of the Amaranthus family, and I believe was first introduced by Luther Burbank, who claims that nothing can compare with it for brilliancy of color. The plants grow about 4 feet in height, but when two to three feet high, leaves at the top and the side begin to open, like gigantic daisies of a most brilliant color, increasing in size and abundance until the whole plant is illuminated with huge poinsettia-like tufts of flaming fire, which can be seen for nearly a half mile and they retain their brilliancy of color for three months or more.
Pkt. (50 seeds), 6c; 3 pts., 15c; 6 pts., 20c.
Petunias

For garden or house culture few plants equal Petunias for effectiveness. They grow readily from seed and are especially useful for borders, solid beds, window boxes, porch boxes, vases, and pots. This type is well suited for beds and borders. Plants form compact bushes with large clusters of flowers in wonderful colors, beginning to bloom early and lasting all Summer.

Roses Morn Petunia

This is a very attractive Petunia, plants are bushy and compact and the medium-sized flowers are produced in great abundance throughout the entire Summer and Fall, and are of the most pleasing clear pink with a silvery white throat. A splendid sort for pots and beds.

Pkt. (200 seeds), 6c; 3 pks., 15c; 6 pks., 25c.

Star Petunia

Grows 15 to 2 feet high, flowering very freely, sometimes 100 on a single plant. Flowers have more or less veining, the main color being a crimson-maroon and in the center of the flower it is a five-petalled white star.

Pkt. (200 seeds), 6c; 3 pks., 15c; 6 pks., 25c.

Mills Giant Verbenas

Verbenas are one of the most popular garden annuals; desirable for beds, borders, mounds, vases, and window boxes. The clusters of showy fragrant flowers are borne in constant succession from early Summer until Fall. They are easily raised from seed.

MILLS GIANT. This is a wonderful collection of pleasant sized flowers in a wide range of the most beautiful shades and colors. A few plants in a bed or border will make a display of colors long to be remembered. Try these Giant Verbenas this year.

Mixed Colors. Pkt. (200 seeds), 6c; 3 pks., 15c; 6 pks., 25c.

Nicotiana

Growing Tobacco

AFFINIS. Handsome bedding plants of long and free blooming habit; the flowers are attractive in shape, pure white and delightfully fragrant. Sow outside when ground is warm and dry, covering seed one-eighth inch deep. For the earliest blooming start indoors and transplant to open ground when danger of frost is past. Allow 18 inches between plants for development, as they grow about 3 feet high.

Pkt. (200 seeds), 5c; 3 pks., 12c; 6 pks., 28c.

Sunflower

GLOBE OF GOLD.

A bushy plant growing from 3 to 4 feet high, producing beautiful flowers of purest golden yellow, borne on long stems above the green foliage. Well suited for any garden. Handsome in the garden or corner of the lawn.

Pkt. (50 seeds) 5c; 3 pks., 12c; 6 pks., 24c.

Read My Offer. See Page 2.

Everlasting Flowers (Helichrysum)

The plants grow 2 to 3 feet high and are covered with large double flowers of the most brilliant colors, including white, pink, yellow, and scarlet. Very attractive for bouquets and when dried will keep for years as cut flowers.

Mixed Colors. Pkt. (200 seeds), 5c; 3 pks., 15c; 6 pks., 29c.

Salvia (Scarlet Sage)

The Salvia is now a standard bedding plant, its long spikes of bright scarlet flowers, borne in great profusion, make a grand sight until killed by frost. Sow seed in March or April in a heated or indoors and set outside after danger of frost.

SPLENDENS. The most popular variety, producing beautiful large, bright scarlet flowers. A produce and long season bloomer. Height 24 to 3 feet.

Pkt. (100 seeds), 6c; 3 pks., 15c; 6 pks., 25c.

Baby Rose - Roses From Seed

The Smallest Ever Grown.

With seed of these Roses, plants may be had in bloom in 45 to 60 days. Flowers appear in large clusters, perfectly hardy in the garden, in pots they bloom both Summer and Winter. Packet of seed will produce Roses of various colors, hardly any two alike.

Mills Giant Verbenas, 2

Mignonette

No garden is complete without a small bed of Mignonette. It is one of the most deliciously scented of all flowers. Plants grow rapidly from seed sown in the open ground in Spring: from 12 to 15 inches high and produce long blossom spikes in great abundance.

Special Mixture, all varieties. Pkt. (500 seeds), 1c; 3 pks., 15c; 6 pks., 28c.

Baby Rose From Seed.
GORGEOUS COLORS

Giant Zinnias

Zinnias are becoming very attractive for mixed borders and bedding purposes, and are remarkable for the profusion, duration and size of their flowers. They thrive anywhere but delight in a sunny location and if seed is sown early in the Spring will flower all Summer and Fall until killed by frost.

Six Gorgeous Colors

(See Front Cover)

Giant Burnt Orange. Pkt. (about 150 seeds), 10c; 3 pkts., 25c.
Giant Crimson. Pkt. (about 150 seeds), 10c; 3 pkts., 25c.
Giant Purple. Pkt. (about 150 seeds), 10c; 3 pkts., 25c.
Giant Canary Yellow. Pkt. (about 150 seeds), 10c; 3 pkts., 25c.
Giant Salmon Rose. Pkt. (about 150 seeds), 10c; 3 pkts., 25c.
Giant Shrimp Pink. Pkt. (about 150 seeds), 10c; 3 pkts., 25c.

Giant Mixed. A wonderful collection of colors, producing huge flowers but after these or 6 inches across and very double. They begin to bloom early and continue until frost.

Pkt. (about 100 seeds), 8c; 3 pkts., 25c.
Giant Dahlia-Flowered. A new type of Zinnias closely resembling Dahlia. The plants grow strong and bloom freely, producing flowers of large size, perfect form and of many shades and colors.

Pkt. (about 100 seeds), 8c; 3 pkts., 12c; 6 pkts., 20c.

PICOTEE. A beautiful new type of Zinnias from California. The flowers are of the largest size in many bright colors, orange, pink, rich yellow, etc., and all tipped rich mahogany brown on the end of each petal.

Pkt. (about 100 seeds), 8c; 3 pkts., 12c; 6 pkts., 20c.

LARGE FLOWERING

DWARF—Bushy, compact plants bearing large double flowers in many colors. Mixed colors, Pkt. (about 100 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c. postpaid.

This illustration was made from a photograph of one flower picked from a plant. Note the mammoth size.

Noah Bryant, Oshkosh, Wis., writes: I am writing to tell you what wonderful luck I have had with your seeds. My Asters are all blooming and the Sweet Peas are eight feet high and at their best. The Zinnias are beautiful, so big and double, some five inches in diameter. All the seed came good, onions and melons are fine. My tomatoes are about six feet high and loaded with fruit.

Moonflower

A beautiful annual rapid climber, foliage very dense, the flowers being produced in a wide range of delicate colorings. Many of the sorts open only when the sun sets and others when the sun rises. I offer all different varieties in a special mixture. Seeds should be soaked in warm water for 24 hours before sowing to assist rapid germination. Try my mixture of Moonflowers this year.

Pkt. (30 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c.

Chinese Sponge

This is a very ornamental and useful vine for a porch or balcony, and comes from the gourd family. It is a strong and rapid grower and produces a great quantity of fruits from one to two feet long of an attractive shape and color. Inside the shell of matured fruits there is a sponge-like substance and when taken out and bleached, it is porous and tough, making a good substitute for sponges or dish cloths, besides being useful for various articles of fancy work. Plant after danger of frost in any mature in from 90 to 100 days.

Pkt. (30 seeds), 6c; 3 pkts., 15c; 6 pkts., 25c.

Japanese Morning Glory

Flowers are of gigantic size, the colorings and markings ranging from snow-white to black-purple with all the possible intermediate shades such as fiery red, pink, rose, red, crimson, copper, crimson, deep blue, pale blue, royal purple, maroon, indigo, bronze, slate, brown, and cherry, while many have throats spotted, marbled, striped, and pink-red. Mixed colors.

Pkt. (100 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c.

Moonflowers.

Japanese Kudzu Vine

Jack-and-the-Bean Stalk Vine

A remarkable climber from Japan. Pkt. (50 seeds), 10c; 3 pkts., 25c. This plant with primary treatment will grow 40 to 50 feet in one season, filling the air with fragrance from its large clusters of purple wisteria-like blossoms. The foliage is large, shaped like the leaf of a bean. Starts into growth early and is hardy. Grows almost beyond belief. Fine for porches, arbors, old trees, etc.
King Edward The flowers are waved and crinkled, of a rich scarlet-crimson color. Two rows of its particular type, attract attention wherever grown. Pkt. (30 seeds), 10c; 3 pkts., 25c.

Blanche Ferry A beautiful rose-pink standard with white wings, suffused and tinted with field pink. A very early and beautiful variety. Pkt. (30 seeds), 10c; 3 pkts., 25c.

Helen Lewis A distinct variety, with a large, intense, rich orange-crimson standard and rose-red wings, one of the most beautiful spencers in the list. Pkt. (30 seeds), 10c; 3 pkts., 25c.

Lavender George Herbert Magnificent shade of blue-lavender, strong and vigorous in habit and blooms profusely. A very beautiful sort. Pkt. (30 seeds), 10c; 3 pkts., 25c.

Asta Ohn A suffused lavender or light purple mauve, sometimes showing a pinkish tinge. The flowers are large and wavy, being very striking and beautiful. Pkt. (30 seeds), 10c; 3 pkts., 25c.

Dobbies Cream A very popular pastel, with fine, long, wavy or deep cream; strong grower and profuse flowering. Pkt. (30 seeds), 10c; 3 pkts., 25c.

Countess Spencer Flowers extremely large, wavy, pale and with a feather edge. A true old spencer type, and one of the best in that class. Pkt. (30 seeds), 10c; 3 pkts., 25c.

Lord Nelson A variety destined to become very popular. Pkt. (30 seeds), 10c; 3 pkts., 25c.

Margaret Atlee A rich, glowing lavender with salmon and amber. Flowers elongated, wave and of immense size on long, stout stems. Pkt. (30 seeds), 10c; 3 pkts., 25c.

Mrs. Townsend A large, well-waved white, with a distinct pleated edge of bright blue around both standard and wings. Of strong growth and free flowering. Pkt. (30 seeds), 10c; 3 pkts., 25c.

Elfrida Pearson Flowers very large. Pkt. (30 seeds), 10c; 3 pkts., 25c.

Etta Dyke A very strong grower with lovely profuse flowers. Pkt. (30 seeds), 10c; 3 pkts., 25c.

BEAUTIFUL SWEET PEAS

It is easy to grow Sweet Peas because seed can be sown very early in Spring in the open ground, and soon spring into radiant life, producing great quantities of beautiful flowers, which7 finely dance and sparkle in the sunlight. I have selected 14 named varieties of the Giant Butterfly or Spencer Sweet Peas, the most beautiful and easily grown and free blooming sorts as shown and described on this page. The blossoms are beautiful in shape, size and color, very fragrant and are produced in great abundance. Everybody loves Sweet Peas and should grow them. It takes very little room and they require so little care to get wonderful results. Read the description of each of the 14 varieties and I am sure you will want to grow every one of them. I have made a special offer of the entire 14 kinds for 60c.

SPECIAL OFFER. In order that all my customers may grow this wonderful collection of 14 GIANT SWEET PEAS, I will send one packet of each color, 14 packets in all as described on this page to any address, postpaid, for 60c; two collections for $1.00.

Leaflet, "How to grow beautiful Sweet Peas" sent free with every order.

F. B. MILLS, GROWER Rose Hill, N. Y.
Of all the flowers supplied my customers last year this RAINBOW COLLECTION of Gladioli was one of the most gorgeous, satisfactory, and popular collections I have ever sent out.

They are so easily grown in any garden that everyone should grow them extensively in beds and borders. I have added a great many new colors to this collection this year and am sure the many gorgeous shades, with such wonderful tints and markings will please, surprise and delight all who grow them. I can show on this page only a few of the many colors and shades in this wonderful collection, which will give some idea of the gorgeous flowers.

If you want the greatest array of Gladiolus flowers you ever had, plant a liberal supply of "RAINBOW COLLECTION" this year (100 or more bulbs if you possibly can). Plant at intervals from as early in Spring as ground can be worked until July and you will have a continual supply of beautiful flowers in about 50 days after planting until frost in Fall.

My BULBS vary in size according to different varieties in the mixture, from % inch and up to nearly 2 inches in diameter. I offer only Rainbow Collection—no separate colors.

Prices: 12 Bulbs 40c; 25 for 75c; 50 for $1.30; 100 for $2.50; 500 for $12.00
Delivered by Parcel Post to any address in the United States. No Bulbs sent to Canada or Foreign Countries.

Instructions for planting and culture of Gladioli will be sent with every order.

RAINBOW COLLECTION will produce more flowers for the money invested in bulbs than any other flowering bulb.

F. B. MILLS, Seed Grower, Rose Hill, N. Y.
